IMPROVING SAFETY AT SEA.

ALUSAFE 770 RIB

Alusafe 770 RIB is a specially designed RIB intended for installation onboard mega yachts.

She has a hull made of marine aluminum, cockpit made of GRP and hypalon inflatable fender. All to the highest available standard. The cockpit with high class navigation equipment installed, has seating for two on sophisticated Ullman jockey seats. In total the boat has seating capacity for 6 persons.

The boat is built to give maximum safety and comfort for the crew both at full speed as well at idling. Propulsion consists of Volvo Penta D6 diesel engine developing 435 hp and Hamilton water jet. This combination achieves a top speed of more than 45 knots.
