

Access Manager

Integrated Access Control

Parking Base's permit-based access control for commercial and residential properties in controlled areas.

Access Control, Simplified

- **Effortless Access Management:** Digitally manage tenant and guest parking with ease.
- **Unified Credentials:** Enable a single access credential for seamless entry across your property or campus.
- **Smart Gate Integration:** Leverage direct APIs or cost-effective hardware controllers to connect with your existing gate systems.
- **Flexible Digital Entry:** Offer one-time or multi-use QR codes, LPR workflows, or proxy card integration for ultimate convenience.
- **Versatile Equipment:** Manage RFID, QR, barcode, and reservation access with lightweight, efficient hardware.

Just some of Parking Base's 1300+ Integration Partners...

- Direct APIs with PARCS for seamless customer experience
- Integrated with leading building access control systems
- Implement a unified permitting and digital parking platform across fragmented equipment ecosystem
