

Your Foundation for Smarter Parking Management

What Sets Parking Base Apart?

We believe the best solutions emerge when we work hand-in-hand with our clients. We understand that workflows don't always follow a set path, which can be challenging for operators and providers. At Parking Base, these challenges fuel our developers to design new features to meet our clients' needs.

Four Powerful Products - One Backoffice System.

Seamlessly manage valet parking services with a comprehensive solution tailored for valet and Point of Sale applications, ensuring efficiency and simplicity.

Streamline your digital permit and subscription parking and deliver a seamless experience for operators and customers.

Enables customers reserve monthly, partial, and advanced parking through your branded e-commerce site for ultimate flexibility and convenience.

Effortlessly manage parking access with a permit-based system designed for residential and commercial controlled areas.

Who We Are

Born and battle-tested in New York City, Parking Base is trusted to manage the most complex parking market and facilities in the world.

Why Choose Us

In an industry dominated by vaporware, minimally viable products, and clever marketing, we pride ourselves on delivering products that transform parking operations and positively impact the bottom line.

Customer and Back Office Management Tools

Streamline parking operations by enabling seamless customer interactions, efficient payment processing, and real-time data management for smarter business decisions.

Accounting-First Approach with Robust Reporting

Built with your accounting needs in mind, our accounting-first approach delivers precise financial management and robust reporting for smarter, data-driven decisions.

1300+ APIS for Better Integrations & Accessibility

Our platform's robust API system flawlessly integrates with your existing payroll, accounting systems and other systems.

Thoughtful Customizations

Our developers eagerly collaborate with our clients to create new capabilities.. Nearly every feature we offer exists because a customer requested it.

Four Powerful Products

Increase efficiency and streamline your workflow. Simplify all your parking operational and technology needs with one platform.

Valet Manager

Administer an end-to-end valet and event experience to reduce customer friction and theft.

Permit Manager

The only parking permit platform built from an accounting-first perspective.

Destination Manager

Sell off/on-street parking on a white-labeled basis without paying commissions.

Access Manager

Provide permit-based access control to your property.
