

# A Step-by-Step Flood Emergency Checklist

## 1. Put Safety First

---

- ☐ Evacuate and call emergency services on 111 if there's standing water and electrical hazards
- ☐ Turn off power, water, and gas at the mains before entering any flooded area
- ☐ Keep up to date with news during a major weather event via the radio or Civil Defence
- ☐ Keep pets and livestock safe and move them to higher ground
- ☐ Avoid standing or fast-moving floodwater and contaminated water
- ☐ Be cautious of slippery surfaces, debris, and weakened structures

## 2. Stop the Source of Water

---

- ☐ Locate and turn off the source of flooding if it's safe (burst pipe, leaking appliance)
- ☐ Divert stormwater or rising groundwater away from your property if possible
- ☐ Use sandbags or barriers to minimise further water damage

## 3. Call the Professionals Immediately

---

- ☐ Contact JAE's 24/7 emergency flood team ASAP to minimise damage on **0800 225 552**

## 4. Protect Your Belongings

---

- ☐ Move valuables, important documents, electronics, and small furniture to a dry area if safe
- ☐ Place aluminium foil or wooden blocks under furniture legs to limit further water absorption
- ☐ Avoid walking on wet carpets, rugs, or upholstery until professionally inspected
- ☐ If safe, ventilate the area by opening windows and doors

## 5. Document the Damage

---

- ☐ Take photos or videos of all affected areas and damaged items for insurance purposes

## 6. Contact your Insurance

---

- ☐ After calling JAE, lodge a claim with your insurance provider

## Let JAE take care it from here!

---
