

June 2016 CBHC Standing Committee Highlights

CBHC Night at the Rockies is July 21st | Buy your tickets today at www.rockies.com/cbhc

Managed Service Organizations Committee (MSO):

- HCPF is contracting with Deanna Ryerson (North Range) to do the FINAL editing of the current coding manual.
- OBH seems to be in agreement that separating the coding manual doesn't make sense.
- The committee started discussing what the new detox measure should be.
- The Governor signed SB202 that puts \$6M into the MSO system for a community action plan study and implementation.
- The committee brainstormed about the scope of work for the community action plan and who the partners should be.
- Lisa Tupa has resigned from OBH; she will be moving to WICHE.
- Yolanda has also left OBH. There is great concern about her resignation as there has not been a formal notice nor a plan of action.
- The National Conference on Addictions and Disorders (NCAD) is here in Denver, August 18-21. CBHC members have been offered a discount to attend ("CBHC15").

Behavioral Health Organizations Committee (BHO):

- The rate setting affected all BHOs with smaller cuts, except for CHP who had a larger cut this cycle.
- HCPF will be doing an analysis of the parity rule; looking at what information will be needed to determine if there is parity with physical health.
- The BHOs shared the results of the M&S Audits.

Committee on Data Finance and Budget (CDFB):

- The Committee reviewed a summary of the M&S Audits; a workgroup was formed to further consolidate the results and make recommendations.
- A workgroup was formed to look at the current payment models across the State and begin to brainstorm about new models.
- The committee shared about each of their contract status reports from OBH; most centers will meet their targeted number, but may fall short on non-targeted.
- OBH has released the DII RFP; proposals due by July 13.

Legislative and Community Action Committee (LCAC):

- The governor vetoed SB169, but recommended a taskforce be created; CBHC will be participating on that taskforce and is looking for additional support.
- Lauren from Capitol Success shared a presentation about the elections in November.
- Gill shared about the outcome of the budget.
- Frank shared about the 5 2016 BH Champions; CBHC will be working with the membership to organize events to honor the Champions.

Health Care Operations (HCO):

- Doyle shared a summary document of the feedback she received from the committee about the data outcomes alignment work with OBH and HCPF; and asked the committee for any further input.
- The Middle Managers Academy will be July 11-14 in the Springs.
- Doyle asked the committee to stay aware of the Criminal Justice Think Tank and provide input as topics come up.

Mental Health Centers Committee (MHC):

- The committee strategies and developed agenda items for their workgroup meeting on the continued funding of the BH system.
