

**Fulton Science Academy Private School**  
**MS Math Summer Homework School Year 2026-27**

**Welcome to summer!**

This document is for MIDDLE SCHOOL STUDENTS. (*High school students, please refer to the HS Math Summer Homework page on the school website.*)

While we know summer is a well-deserved time to relax and recharge after a rigorous school year, it is imperative that students continue practicing their math skills. Consistent practice ensures that students retain what they've learned over the two-month break and guarantees a strong start to the upcoming school year.

Please note that all secondary students (grades 6–12) have ***required*** summer assignments. Regardless of a student's age or specific math course, they are expected to complete this work.

**Important Details:**

Due Date: The completed assignment is due on the first day of school.

Grading: This will count as your child's first grade for the 2026-27 school year.

Please ensure your child completes the correct assignment for their upcoming course!

**Math 6AB**
