

Fulton Science Academy Private School
AP Chemistry 2026–2027: Summer Assignments

Dear Students,

Welcome to AP Chemistry!

Your summer assignments are designed to help you review and reinforce key concepts from Honors Chemistry. There will be **two assignments**: one paper-based and one online. **Both are due on the first day of school.**

The **paper-based assignment** is shared as a separate document. Please complete it neatly and **show all your work** clearly.

The **online assignment** will be on a platform called **Viziscience** (www.viziscience.com). Currently, the platform is getting an update and is expected to become available during the **first week of June**. Once it is ready, I will provide a separate PDF with instructions on joining the class and completing the required tasks. (If you experience any issues with your Viziscience account, please reach out to their [help desk](#)!)

Please check back in about **two weeks** for the updated document regarding the Viziscience assignment.

Wishing you a wonderful and restful summer!

Warm regards,

Mr. Eksi
