

#### DESIGN & DEVELOPMENT

### FOCUS ON MANUFACTURING PARAMETERS FROM THE BEGINNING

Robling excels in Design for Manufacturing and Assembly, prototyping and benchtop performance characterization, with an early focus on material, tooling, and manufacturing process selection.

#### TRANSFER & VALIDATION

### COMPREHENSIVE POST-DESIGN FREEZE QUARTERBACKING

Full-service project management of all V&V testing, with in-house assembly, sterilization and packaging validations.

#### STERILE DEVICE MANUFACTURING

### EVERYTHING FROM PROTOTYPE RUNS TO FULL SCALE PRODUCTION

Experts in bonding, tipping, heat sealing, and ultrasonic welding, with extensive kitting capabilities.

#### STERILE PACKAGING

### MILLIONS OF STERILE PACKAGES PRODUCED ANNUALLY

Form, fill and seal for flexible and rigid medical packaging with fully controlled and compliant regulatory labeling.

#### ELECTRO-MECHANICAL ASSEMBLY

### FULL ELECTRO-MECHANICAL ASSEMBLY AND BOX BUILDS

Cable and harness assembly, PC board flashing, and PC imaging and integration with full functional test.

**LET'S WORK TOGETHER**
