ROBLING MEDICAL

Built On Connection

UROLOGY DEVICE MANUFACTURING

Robling Medical is a leading CDMO in the design, development, and manufacturing of urology devices for medical OEMs all over the world. Urology devices require precision manufacturing, advanced assembly processes, stringent cleanliness controls, and reliable supply chain execution. From minimally invasive diagnostic systems to disposable procedure kits and drainage systems, Robling Medical is uniquely positioned to support the growing needs of the urology market.

CATHETER	SINGLE-USE SCROPES	PROCEDURE KIT	URINALYSIS EQUIPMENT	IMAGING SYSTEM	RETRIEVAL DEVICE

PRODUCT EXPERIENCE

- Minimally invasive interventional products
- Foley catheters and access devices
- Diagnostic and therapeutic cytoscopes, ureteroscopes, and hysteroscopes
- Prostate and BPH treatment devices
- Urine collection, metering, and analysis systems
- Disposable procedure kits and trays
- Endoscopic retrieval devices and accessories
- Fluid transfer and management systems

KEY CAPABILITIES

- ISO 13485 manufacturing of both reusable electromechanical systems and disposable devices.
- Catheter manufacturing processes including cutting, tipping, reflowing, bonding, punching, and forming
- Precision assembly of minimally invasive therapies and disposable visualization systems
- Solvent, UV, and epoxy bonding of fluid path components
- Ultrasonic welding, RF welding, heat staking, and laminating
- Kitting, sterile barrier packaging, and sterilization management
- Electromechanical assembly and testing
- Supply chain management including procurement and vendor qualification
- Final processing including packaging, sterilization coordination, warehousing, and distribution

The Robling Difference

Deep experience with single-use devices and electromechanical systems

Cross-functional teams that bring design, quality, and production together

U.S.-based operations for enhanced communication, speed, and regulatory alignment

Proven results supporting clinical builds and commercial scale-up

ISO 13485 CERTIFIED | FDA REGISTERED | U.S.-BASED MANUFACTURING
