

DIGIFEST

March 23, 2022

2:00-5:00 P.M.

College of Technology Room 108 B

Dennis,

Join us at DigiFest!

DigiFest is an event hosted by the College of Technology department within the University of Houston at Sugar Land. At the event, seniors will be able to present their portfolios to you and many other visiting employers as well. These fields being displayed within the digital media program include graphic design, motion media, digital photography, app development, and much more.

This event allows the seniors to have an opportunity to meet employers that they could potentially work for in the future. DigiFest is extremely beneficial for the seniors since they are able to showcase their skills to employers while also receiving feedback from them. We are very excited and look forward to meeting you!
