

WOODS FL LUXURY VINYL COLLECTION

Woods FL

FINISH YOUR PROJECTS ON TIME AND UNDER BUDGET.

Woods FL is designed for multi-level flooring projects featuring a crossover color selection across multiple flooring types. On lower levels, Woods Glue Down helps keep your projects under budget without compromising style or durability. On upper levels, Woods FL Floating Floor installs quickly and matches the same high-quality styles and long-lasting performance while also working to reduce the amount of sound transferred to floors below.

UNDER BUDGET
MATCHING COLOR STYLES

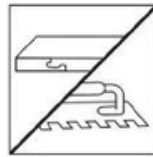

Finish Your Projects On Time And Under Budget. Multi-level projects will never be the same.

Every color in the Woods line is available in GlueDown and Floating Floor formats. Woods FL also offers an unprecedented selection of moldings and stair treads to finish every project with a refined and unified look.

12

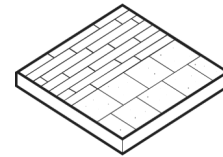

Curated Designer Colors

A focused selection of premium colors and textures to ensure the perfect floor for your designer vision.

Multi-Format Flooring

No need to compromise on style, budget or schedule. Each color is available in both GlueDown and Floating Floor formats to help you finish on time and under budget.

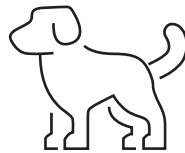

Transitions & Moldings

Provide a clean finish with the vast selection of moldings in matching colors. Transition between flooring and finish to any wall, fixture or vertical edge.

12 Mil ScratchGuard Wear Layer

Highly abrasion-resistant coating provide shine and increases the lifespan of your floor.

Pet Friendly

Messes stay on the surface and do not penetrate or go under the floor.

Build Responsibly

All products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Sections 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

Pearl - 2901

It's a quiet, neutral shade. Pearl gives you the charm of wood with a whisper not a shout.

Pearl - 2901

Also available in GlueDown 2101

Bristol Harbor - 2907

The light grey wood tint is popular in today's modern home, creating a sense of more space.

Also available in GlueDown 2107

Whispering Pines - 2908

Inspired by the classic look of Hickory wood. The lighter shades add variety, warmth, and charm.

Also available in GlueDown 2108

Bedford Creek - 2910

Features a timeless shade with medium variation made to mix smoothly with the room's decor.

Also available in GlueDown 2110

Sandpiper Spring - 2909

Sandpiper Spring features a timeless shade with medium variation made to mix smoothly.

Also available in GlueDown 2109

Arrowhead - 2903

Also available in GlueDown 2103

Arrowhead - 2903

Casual style is the point that Arrowhead gets across with its medium wood tone.

Also available in GlueDown 2103

Cobble Hill - 2911

The shade's caramel, even-tone adds a sense of comfort to any room, putting the focus on decor.

Also available in GlueDown 2111

CREATE INSPIRING SPACES.

Why hard surface flooring?

Hard surface floors are easy to clean and maintain because they provide a one-dimensional surface that doesn't absorb odors, spills, dust, or soil. They also don't retain moisture, which can lead to microorganisms such as dust mites and mold.

What are you breathing?

Research by the RFCI shows that on average a person will spend 90% of their life indoors. Whether it be in your working environment, your home, or sitting in a movie theater, you will spend a majority of your time inside. When this is realized, you may want to know how healthy the air quality is, and rightly so. A recent study done by the Environmental Protection Agency (EPA) found that indoor air was deemed two to five times more harmful than outdoor air. This is due to many harmful pollutants including radon, mold, and carbon dioxide found indoors. Healthy air contributes to better learning in schools, improved productivity in offices, and more comfortable homes. Poor indoor air quality (IAQ) can be a factor in a variety of health problems, such as headaches, dizziness, and more serious long-term effects.

BUILD RESPONSIBLY.

Why FloorScore?

When it comes to indoor air quality, a primary concern is the emission level of specific volatile organic compounds (VOCs). FloorScore® IAQ Certification means that a flooring product is independently certified by SCS Global Services to comply with the volatile organic compound emissions criteria of the California Section 01350 Program. Hundreds of resilient flooring materials and their adhesives bear the FloorScore® seal. This seal tells you that the products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Section 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

FloorScore Requirements?

To earn the FloorScore® seal, a flooring product must satisfy the requirements of the SCS-EC-10.2-2007 Environmental Certification Program – Indoor Air Quality Performance.

Which Includes:

- Testing demonstrating compliance with emission concentrations for listed VOCs under California Section 01350
- Manufacturing facility on-site audits and yearly surveillance audits
- Annual product re-testing
- Product record keeping
- A documented quality control plan
