

SUONO PLUS FLOATING FLOOR COLLECTION

SUONO PLUS

Naturally Stunning Floors For The Modern Home.

Featuring a larger format, Suono Plus has captured a lot of attention with naturally pristine visuals inspired by the world's most breathtaking destinations. Authentic wood styles range from rustic to modern.

30% Faster Installation

With the all new Rapidlock Technology Suono Clip is now easier to install than ever before..

Pet Friendly

Messes stay on the surface and do not penetrate or go under the floor.

Sound Resistant

Attached pad underlayment reduces sound transfer and provides walking comfort.

10 Curated Designer Colors

A focused selection of premium colors and textures to ensure the perfect floor for your designer vision.

Transitions & Moldings

Suono has an impressive selection of moldings in matching colors to provide a clean finish to every floor. Transition between flooring types and heights. Finish to any wall, cabinet, fixture or edge.

CERTIFIED BY
SCS Global Services

Build Responsibly

All products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Sections 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

Biscayne Bay - 9711

It's the subtle hints of driftwood that give out a warm glow, not to mention an air of modern style.

Mesa Verde - 9714

Comes with high-color variation for true rustic style great for any space you entertain guests.

Joshua Tree - 9713

Light hues add to the classic look, which also work great in high-traffic areas.

Mount Rainier - 9707

Mount Rainier - 9707

Its knotting features evoke images of freshly cut wood. A pristine portrayal of minimalist design.

Pinnacle Grove - 9715

Muted shades of reddish brown
conjure its classic, yet fresh and
cozy design.

Mount Olympia - 9712

It makes any living space warm and inviting, along with a relaxed style you'll never get tired of.

Yellowstone - 9706

Yellowstone provides a warm hue with natural knotting and a look that will rejuvenate your space.

Yellowstone - 9706

North Cascades - 9705

North Cascades - 9705

Its sleek design allows for innumerable pairing options for stylistic furnishing choices.

Acadia - 9704

Silver overtones and a medium shade variation create a naturalistic modern look.

Acadia - 9704

Black Canyon - 9701

Black Canyon - 9701

Acting as a dark canvas, Black Canyon is the perfect backdrop to make colors pop.

RAPIDLOCK

TECHNOLOGY

CUT DOWN INSTALLATION TIME BY 30%

Installing Suono Plus is faster and easier than ever before, thanks to its innovative Rapidlock clip system. Rapidlock ensures a reliable, water-tight lock that lasts. Designed to be installed with just a click, renovating just became a whole lot easier.

1 | ANGLE

Start by engaging the plank on the long side at a 45° angle.

2 | SLIDE

Slide the plank to the left until the sides align.

3 | DROP

Gently drop the plank to engage the locking system.

4 | SECURE

To secure the locking system and make flush, gently tap with a soft-faced hammer.

Check out UrbanSurfaces.com for the full guide on Rapidlock.

BEAUTY IN THE DETAILS

Easily transition the flooring to a variety of different settings. The different molding options deliver several variations, when fitting the floor to any room, and any situation. Pick the best molding for your desired look.

Why hard surface flooring?

Hard surface floors are easy to clean and maintain because they provide a one-dimensional surface that doesn't absorb odors, spills, dust, or soil. They also don't retain moisture, which can lead to microorganisms such as dust mites and mold.

What are you breathing?

Research by the RFCI shows that on average a person will spend 90% of their life indoors. Whether it be in your working environment, your home, or sitting in a movie theater, you will spend a majority of your time inside. When this is realized, you may want to know how healthy the air quality is, and rightly so. A recent study done by the Environmental Protection Agency (EPA) found that indoor air was deemed two to five times more harmful than outdoor air. This is due to many harmful pollutants including radon, mold, and carbon dioxide found indoors.

Healthy air contributes to better learning in schools, improved productivity in offices, and more comfortable homes. Poor indoor air quality (IAQ) can be a factor in a variety of health problems, such as headaches, dizziness, and more serious long-term effects.

BUILD RESPONSIBLY.

Why FloorScore?

When it comes to indoor air quality, a primary concern is the emission level of specific volatile organic compounds (VOCs). FloorScore® IAQ Certification means that a flooring product is independently certified by SCS Global Services to comply with the volatile organic compound emissions criteria of the California Section 01350 Program. Hundreds of resilient flooring materials and their adhesives bear the FloorScore® seal. This seal tells you that the products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Section 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

FloorScore Requirements

To earn the FloorScore® seal, a flooring product must satisfy the requirements of the SCS-EC-10.2-2007 Environmental Certification Program – Indoor Air Quality Performance.

Which Includes:

- Testing demonstrating compliance with emission concentrations for listed VOCs under California Section 01350
- Manufacturing facility on-site audits and yearly surveillance audits
- Annual product re-testing
- Product record keeping
- A documented quality control plan
