Boulevard COLLECTION

#1 COMMERCIAL FINISH

A moisture wear resistant commercial urethane topcoat protects the Real Wood wear layer of the floors from the wear and tear of everyday life. The Glaze Tek Commercial Finish reinforced with aluminum oxide, creating a physical barrier to provide maximum scratch and wear resistance.

TrueMark[®]
Glaze Tek Poly Finish

#2 REAL WOOD

Only natural wood creates authentic and unique designs; in real hardwood floors you never see the same board repeated twice. That is why Elm Surfaces has chosen real European Oak, American Hard Maple and American Hickory for the 4mm wear layer. The meticulously selected boards are carefully treated using hand-scraping and unique brushing techniques to enhance nature's own graining. The result is a floor that will add a sense of luxury and warmth to any space.

HICKORY

- Species - Carya
- Etymology - From Pokenchocora (Algonquin)
- Fruit - Pecan
- Hardness - 1820 Janka
- Strengths - Dense, Strong, Shock Resistant

- Fruit - Double Samara
- Hardness - 1450 Janka
- Strengths - Dense, Tonewood, Antibacterial

ONLY THE LARGEST HICKORY, OAK AND MAPLE TREES ARE HARVESTED TO MAKE OUR ULTRA WIDE PLANK

#3 TRUECORE

Elm Surfaces Floors uses certified hardwood veneers and TSCA TITLE VI compliant glues for the center-ply in our engineered floors' hardwood construction. The center veneers are cold pressed, then hot pressed with tremendous pressure. This process makes the center core Eco-friendly, harder and more proportionally stable.

- Higher Stability
- Higher Density
- Higher Strength
- Higher Indoor Air Quality

Truecore® is third party verified and surpasses the emission requirements.
