Progress that invests in the entire society

As an active member of the U.S. Green Building Council, MILEstone spreads awareness to the community and encourages the use of building solutions through environmentally friendly practices. Our products positively contribute to the requirements for obtaining the LEED (Leadership in Energy and Environmental Design) and WELL (IWBI) certifications.

A commitment to environmental sustainability and responsibility

We are committed to conscious development that minimizes the negative impact of manufacturing production on the environment. Our general approach to sustainability intersects with our business strategy to embrace three areas of responsibility: economic, social, and environmental. Some ways we prove this are:

- Products containing as much as 64% recycled content.
- Zero industrial wastewater discharge.
- A 99% internal process recycling rate.
- 100% Regionally sourced raw materials used in the production of the body of our tile, supporting local industries and sustainable practices.

MILEstone is taking these and other steps, as well as actively investing to reduce carbon emissions to ensure that we reach full carbon neutrality.
