

# Torino

Arizona

The search for the essence of the earth led us to a deep connection with materials in its raw state and revealed characteristics that opened up new possibilities thinking about the concept of covering. Torino brings the origin of the material that has the power to transform itself but preserves its essence.

A color analysis, based on an immersion in the reconnection and identity trend, resulted in an intense palette of earthy tones, complemented by cold nuances inspired by nature. In a 3x14 size that can be used both on floors and walls, Torino gives personality and inspires new forms of expression for unique environments.
