

# Pass every audit with confidence—no matter the regulation

Whether you're governed by ITAR, EAR, OFAC, or C-TPAT, one thing is certain: compliance can't be inconsistent. Envoy helps you standardize enforcement, automate the manual stuff, and prove you're audit-ready—across every site, every time.

## What makes Envoy audit-ready by design

### Fewer manual steps, fewer errors

Standardize automated sign-in flows and digital records to minimize missed steps and human error.

### Faster, more confident audit prep

Access time-stamped visitor histories, signed forms, and compliance reports instantly—no scrambling.

### Stronger defensibility for high-stakes audit

Prove at a moment's notice that policies are enforced consistently across locations.

### Complete visibility and control across sites

Standardize compliance protocols across every site and track activity from a single dashboard.

### Align IT, security, legal & ops

Use role-based permissions and centralized data for cross-team collaboration on compliance efforts.

### Scale compliance without scaling complexity

Support five sites or 50. Envoy adapts to your evolving regulatory requirements.

## Access features designed to make audits efficient and pain-free

- ✓ Verify every visitor's identity
- ✓ Update sign-in flows with ease
- ✓ Protect sensitive information
- ✓ Flag watchlist matches instantly
- ✓ See who's onsite in real time
