

TRUSTED EDI INTEGRATION FOR MICROSOFT DYNAMICS 365 BUSINESS CENTRAL

Driven by expertise. Certified by EDICOM. Fully compliant with local regulations.

Digitizing your order-to-invoice process shouldn't be complicated—or risky. That's why leading companies in Italy trust N.Progression, a Microsoft Dynamics 365 Business Central specialist with deep EDI integration expertise, to deliver secure, compliant, and efficient workflows through EDICOM's certified platform.

Our connector doesn't just automate data—it transforms your entire sales cycle. From order intake to invoice delivery, every step is streamlined, reducing errors, accelerating billing, and ensuring full compliance with Italian e-invoicing mandates

✓ CERTIFIED INTEGRATION

Our connector uses EDICOM's certified infrastructure to ensure full compliance with local submission standards — automatically handling XML formatting, digital signatures, and delivery receipts.

✓ END-TO-END AUTOMATION

We eliminate manual bottlenecks across sales, finance, and logistics and you will receive fully automated process with standard Business Central workflows, auto-import, auto-send

✓ FULLY COMPLIANCE

Our solution is designed specifically for the local markets and compliant with national e-invoicing laws. The interface is available in English, ensuring ease of use for international teams managing local operations.

✓ REDUCED ADMIN OVERHEAD

Businesses using our connector report up to 40% faster invoice cycles and significant time savings for finance teams.

Why Leading Companies Choose N.Progression?

- Microsoft Dynamics Partner with 10+ years of ERP integration experience
- Certified EDICOM partner, ensuring robust legal archiving and traceability
- In-depth EDI expertise across retail, FMCG, pharmaceutical, manufacturing, logistics, and finance
- Dedicated local support, ready to assist with implementation and ongoing optimization
- Client Success Stories: From SMEs to enterprise organizations, our customers consistently report faster invoicing, lower operational costs, and improved compliance confidence.
