

NOTICE OF INVESTMENT PROPOSAL

In connection with the connection of the “Prolez” Wind Power Plant and the “Gorichane” Wind Power Plant, with a total installed capacity of 80 MW, and the contracting entity/investor “NIMEX-2004” EOOD to the electricity transmission network of ESO EAD,

pursuant to Article 95, paragraph 1 of the Environmental Protection Act, “Electricity System Security Operator” EAD, in its capacity as the contracting entity, through its authorized representative Stanislav Gochev, hereby notifies the affected public of the following investment proposal:

“Construction of a 110 kV switching station and two 110 kV connection transmission lines.”

The 110 kV switching station will be located in land property with identifier 16095.15.33 (former identifier 16095.15.26), with a total area of 7,735 sq. m, according to the Cadastral Map and Cadastral Registers of Gorichane village, Shabla Municipality, Dobrich Region, owned by ESO EAD.

The electricity generated by the wind turbines will be collected and transformed in a 33/110 kV step-up substation. From the step-up substation, the electricity will be supplied to the new 110 kV switching station owned by ESO EAD. By means of two 110 kV connection transmission lines, the switching station will be connected to the existing 110 kV “Dropla” overhead line, through which the connection to the electricity transmission network will be established.
