

NOTICE OF INVESTMENT PROPOSAL

Pursuant to Article 95, paragraph 1 of the Environmental Protection Act, “NIMEX-2004” EOOD hereby notifies the affected public of the following investment proposal:

“Construction of a 33/110 kV step-up substation in a land property owned by the company, with identifier 16095.15.32 (former identifier 16095.15.26), with an area of 5,522 sq. m, located in the land area of Gorichane village, Shabla Municipality, Dobrich Region.”

The 33/110 kV step-up substation is intended for the connection of the “Prolez” Wind Power Plant and the “Gorichane” Wind Power Plant, with a total installed capacity of 80 MW, and the contracting entity/investor “NIMEX-2004” EOOD to the electricity transmission network of “Electricity System Security Operator” EAD.

The electricity generated by the wind turbines will be collected and transformed in the 33/110 kV step-up substation. From the step-up substation, the electricity will be supplied to a new 110 kV switching station owned by ESO EAD. By means of two 110 kV connection transmission lines, the switching station will be connected to the existing 110 kV “Dropla” overhead line, through which the connection to the electricity transmission network will be established.
