ADVANCED PATIENT PORTAL

Engage with your care team, anytime, anywhere and have access to your healthcare information.

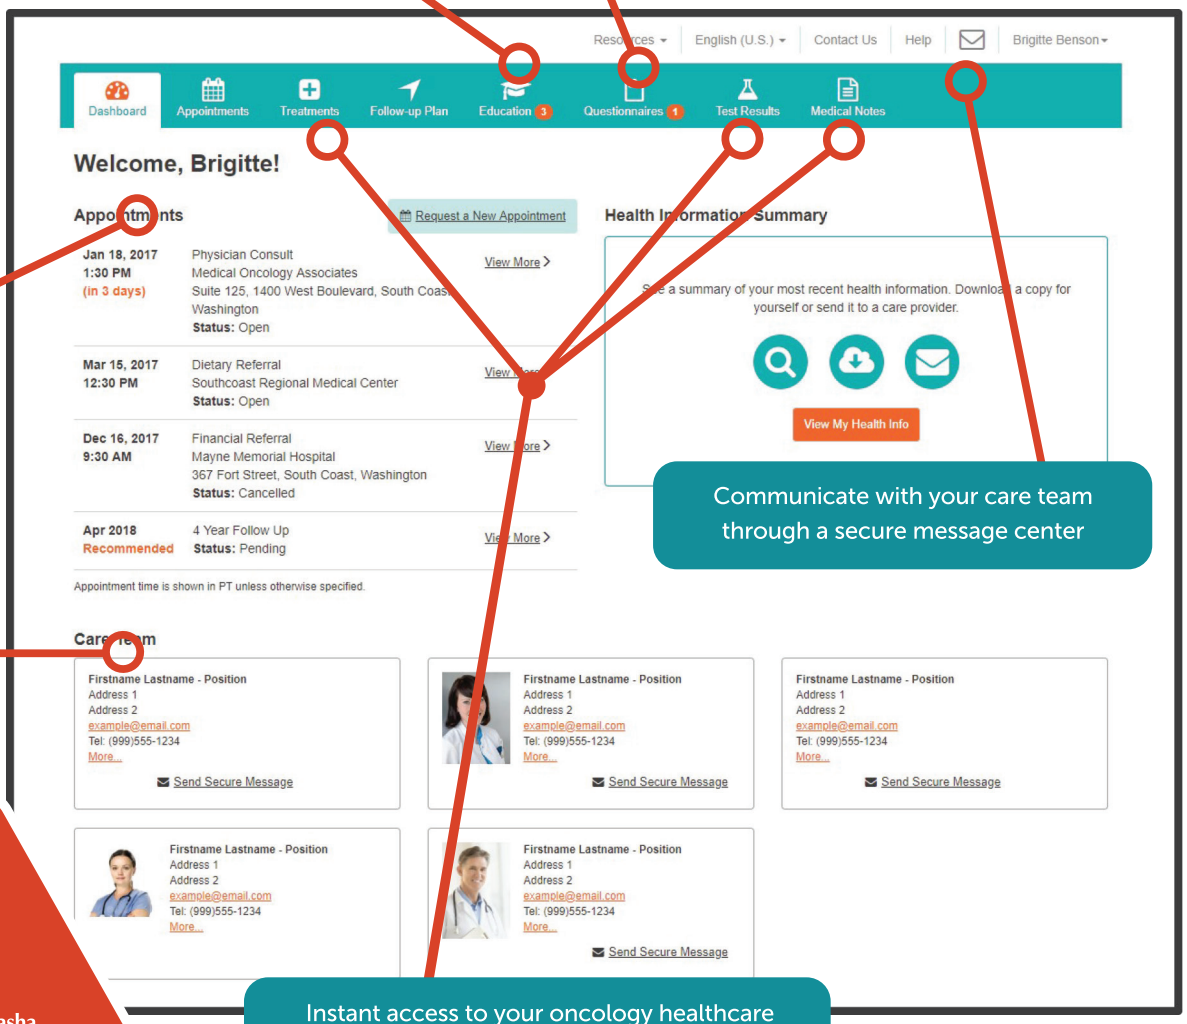

Advanced Patient Portal (APP) includes a secure, web-based portal designed specifically for oncology patients. Patients and their families gain a deeper understanding of their medical condition and stay connected to their care team throughout treatment. With secure access through a standard web browser and an intuitive user interface, the patient portal is easy to use.

APP is multilingual and offers patients their choice of language - Spanish, Portuguese, Simplified Chinese, French Canadian and English (GB, AU, US and CA).

Use APP to obtain current clinical educational materials, specifically assigned to you by your care team

Save time by completing assigned questionnaires and information online ahead of your appointments. Your care provider will immediately receive your responses and will contact you if there are areas of concern

Stay up to date on all of your follow-up appointments with a centralized calendar. You will receive automated text or email appointment reminders, with an option to cancel or change appointments online

View contact information for all of your care team members in one location. Invite your family and friends if you choose

Communicate with your care team through a secure message center

Instant access to your oncology healthcare records including treatment history, test results, medical notes, and care plan
