

DARIO PEÑALVER GARCIA

FREELANCE WEB DESIGNER | MARKETING | BRAND IDENTITY | AI

I am a Spanish creative mind and challenge seeker. I have a passion for creating new things, working from scratch, shaping the abstract and handling the unexpected.

I love solving problems, specially the ones that come from the user, the consumer or the business.

I am constantly learning new things, as fast as I can, because I am insatiably curious. That's why as a designer I would define me as an all-rounder, with a go-getter attitude and hands-on mentality.
