Keep Traveling

WE BELIEVE TRAVEL SHOULD BE TREASURED

Travel is a wealth that accumulates with every miles behind you, with every road explored and every moment spent. It's the culmination of thousands of simple pleasures, like time spent in nature. It feels limitless when it's shared with family, friends and other adventurers. ➤ We believe traveling should be part of our lives. But we must adapt to the challenge of climate change. We feel that the distances we travel should impact nature and people as little as possible. And that the only way to keep exploring is to do so sustainably. ➤ Built for traveling light, our trailers and motorhomes are made to last. Our approach to design and development is aligned with our vision of travel. We focus on the essentials: no gimmicks, just quality and value. ➤ At Safari Condo, we treat our customers like family. Strong ties and a common passion unite us with our user communities. And just like one big family, our teams and customers join forces to work on exciting projects together. ➤ We don't just do business. We're on a mission, boldly going against the grain in an industry that's known for producing short-use vehicles on a mass scale. We have chosen to offer travelers something different: products and services that will never let them down. Our solutions are sustainable and long lasting, just like your passion for exploration. ➤ We're Safari Condo, a team that works tirelessly to safeguard our shared wealth: the joy of travel. ➤ Together, let's keep traveling.

why a Safari Condo?

BACK TO BASICS

Safari Condo's story is one of an approachable company and a passionate community. It's a symbiotic relationship that's lasted over 25 years.

Safari Condo motorhomes stand out due to their ergonomics and light-filled interiors. But it's their smart design that truly sets them apart. Designed by dedicated outdoor enthusiasts and tested continuously in the field, they are made with stunning attention to detail. Optimizing space is a top priority. Your new Safari Condo can go anywhere with ease, letting you make the most of the road without being weighed down.

Tough and reliable, Safari Condo motorhomes are designed to follow wherever your thirst for adventure takes you.

ecological footprint

A SUSTAINABLE VISION OF TRAVEL

Sustainable travel isn't just our business. It's our mission. The well-being of our community, our teams and the planet guides all our decisions. That's why we've challenged ourselves to build quality products that retain their value for longer and reduce the environmental impact of travel.

Our compact motorhomes are fitted out with some of the lightest furnishings and equipment in the industry, helping reduce non-renewable energy consumption. We also use sustainable and recyclable materials, minimize manufacturing waste and offer eco-friendly equipment options like solar panels. With your help, we want to be part of the solution.

Our primary objective is to allow everyone to keep traveling in a more sustainable way—now and for many years to come.

INNOVATION AND ERGONOMICS

Designed by small RV lovers well before the vanlife movement began, Safari Condo motorhomes are known for their innovative features. These include a retractable shower **(1)** that transforms into bench seating to optimize available space and make the interior feel roomier. Safari Condo has also developed a height-adjustable queen bed that operates with the touch of a button and offers one of the largest storage spaces on the market. All these innovations stem from our attention to comfort, ergonomics and practical equipment.

QUALITY AND SAFETY

Safari Condo has been recognized and certified as a manufacturer by Transport Canada **(2)** since our beginnings. We have always taken our responsibilities very seriously. All our models are certified compliant with the CSA Z240 VC – Recreational Vehicles standard, which is the Canadian equivalent of the ANSI/NFPA 1192 standard on RVs in the USA. These certifications, the quality of our materials, and our meticulous assembly process allow us to offer a five-year limited warranty on all our motorhomes.

designed by campers

COMPONENTS ➤ The quality and durability of Safari Condo motorhomes are largely a function of our carefully chosen suppliers, components and materials, which are tailored to outdoor vehicles. For example, our cabinets are built from Formica laminate on a poplar plywood base **(3)**, making them highly resistant to scratches and water while remaining ultralight. And instead of carpeting, our motorhomes have tough, commercial-grade flooring **(4)** that's easy to clean. For all our components, we select suppliers based on the reliability of their products, their proximity to manufacturing centres, and the way they treat their teams, the community and the planet.

built with care

OUR MAKERS

The people who craft Safari Condo motorhomes are proud of what they build. Their drive to meet the highest standards is seen in the meticulous work they produce every day. At Safari Condo, we work with precise measurements and tight tolerances. We don't pressure our teams to deliver as fast as possible because we know that doing things right takes time. Whenever we see a Safari Condo vehicle on the road, we're reminded of why we hold ourselves to such a high bar—and it fills us with pride every time.

ANTICIPATION > The purchase of a new Safari Condo involves a waiting period, which future owners experience with febrile anticipation. They know that our rigorous processes make for a high-quality vehicle that can last a lifetime.

travel every day

OUR USERS

Among our community, there are people for whom travel is a way of life. For these born adventurers, their Safari Condo serves as a primary residence. This is the case for two of our ambassadors, who have traveled with our motorhomes for more than eight years.

Julien is the founder of Go-Van, a huge community of vanlifers from around the globe. He has lived on the road for nearly seven years and now travels with his partner Karolina and their son Zak. They use their platform to encourage a responsible and sustainable approach to van living. They want us all to remain welcome wherever we go for many years to come.

This mission aligned perfectly with our own. So, it made sense for us to go on a journey together. In this document and on our online platforms, you'll see snapshots from their adventures across North America.

We hope that Julien and Karolina will continue to pursue this shared passion and keep traveling!

Julien and Karolina's Safari Condo can rack up the miles without breaking a sweat, whether driving to Western Canada to film a TV show or to Northern Quebec's stunning Groulx Mountains. The couple's road trips provide plenty of opportunities to test out the Sprinter's all-wheel drive! They love making the most of magical moments, like stopping to watch the August sunset on Route 389 or boondocking on the shores of magnificent Lake Superior.

POP TOP ROOF

Safari Condo's ProMaster vehicle series now offers the option of adding a pop top to any model. This creates room for two extra people to sleep comfortably. Sleeping in the roof loft, which has large canvas walls and mosquito screens, will make you feel the natural joy of camping. This option also lets you use your living space while your little ones are napping.

travel simpler

➤ LAKE SUPERIOR° ON ➤ TOWN OF GOVAN° SK ➤ TOWARDS CANMORE° AB ➤

The Prairies have so much to offer when you take the time to stop and explore! That's what Julien and Karolina did in Saskatchewan, where their pit stops became a farming-themed photo series. Traveling in a Safari Condo means having the freedom to go off the beaten path, follow the road wherever it leads, discover stunning scenery and create even more precious memories. But as Karolina shows, it also means feeling right at home even when going out of your comfort zone.

A COMMUNITY BUILT ON PASSION

Safari Condo is more than a brand, and much more than a business. It's you! It's a community of outdoor and travel enthusiasts who are always seeking what's around the next bend.

You have been with us for over 25 years, supporting our passion and helping make Safari Condo what it is today. We hope that you've had a blast, just like us!

We thank you for this extraordinary adventure from the bottom of our hearts. We hope to keep traveling with you.
