NOTES & DATA SOURCES

- Measured water levels (inches vs. outlet) are the Association’s own field readings and are unchanged from the prior record.
- Water levels for Sep 2025 – Jul 2026 are estimated from monthly rainfall and seasonal evaporation, pending actual field readings. Aug 2026 onward will be added as field readings are taken.
- Rainfall figures are official National Weather Service data for Toledo Express Airport (KTOL / NOAA station USW00094830), via NOAA NCEI.
- Aug 2024 rainfall (3.74 in) is from Findlay Airport (KFDY / USW00014825) due to a Toledo Express gauge outage Aug 1–22, 2024.
- 2026 rainfall is year-to-date through September 2026; October is still in progress.
- Annual totals are official NOAA figures; the monthly “Annual Total” row is the sum of the months shown.
