SAFETY

MANIAX is a member of the International Axe Throwing Federation (IATF), a worldwide organisation that promotes universal safety, sportsmanship and competitive protocol.

By investing countless hours perfecting protocols, and by using only the highest quality materials, our venues are without a doubt some of the safest in the world. That means that each student receives a safety briefing at the start of the session plus one on one coaching to ensure safe throwing at all times.

Each lane is overseen by one coach for every 15 students, ensuring constant supervision during every throw. Coaches will demonstrate safe throwing and safe handling of axes.

Our lanes are in line with safety guidelines set by the International Axe Throwing Federation. There is wire fencing in between each target & woodchips placed beneath the targets to slow any stray axes.

Risk Assessment documentation is provided to all schools as part of their booking.
