## Parking Across the Bridge

Take a right across the bridge as you head out of Wye Valley Canoes. Take the first left after the bridge, there is a small public carpark outside the scout hut with limited parking. If this is full, there is ample on street parking throughout this section of Glasbury.

## Parking Near Bus Stop

Take a left out of Wye Valley Canoes, turn right at the junction and there is a lay-by almost immediately on your left hand side. If this is full, you could also park up the hill.

# WHAT BOATS DO WE USE?

## Canadian Canoes

We have a selection of 2 and 3 seat canoes available for hire. We're committed to selecting the most suitable canoe for your group. Our trusted brands include Old Town, Novacraft, and Silverbirch.

## Kayaks

We stock a very limited number of single and double kayaks, these are available to book by request only. Our kayaks are only recommended for shorter day trips, due to the size and space confinements.

# EQUIPMENT PROVIDED?

## Dry Barrel / Dry Bag

We will provide you with a 60 litre dry barrel or dry bag for your trip to ensure your essentials stay dry, even when you don't. On our camping trips you can fit a maximum of 3 dry barrels in your Canadian canoe (2 if using a 3 seater canoe).

## Buoyancy Aid

Buoyancy aids are essential for canoe hire as they ensure the safety and well-being of paddlers on the water. These aids provide flotation and support, helping individuals stay afloat in case of an accidental capsize. Regardless of one's swimming ability, wearing a buoyancy aid significantly reduces the risk of accidents and enhances confidence while paddling. At Wye Valley Canoes, safety is paramount, which is why we provide high-quality buoyancy aids with every hire.

## Paddle

Paddles are the engine for your canoe, all participants are kitted out with a paddle. We give all customers a paddle demonstration to ensure that you feel comfortable on the water and can steer your boat correctly and efficiently.
