

Identity Groups

Some of our Groups are designed to help you explore your story or engage with a particular area of crisis

Some of our Care Groups are for those facing particular moments of crisis in their identity, whether that's grief, divorce, transition, or addiction. [You can explore our Care Groups here.](#)

[Story Groups](#) for women and [Iron Collective](#) for men are small groups that help individuals unpack their stories and find their identity in Jesus, focusing on their own story and how it connects with God's story.

Space is limited in these groups, and they launch each fall. The individuals in Story Groups and Iron Collective groups are selected from a pool of applicants and commit to completing the full 8-month experience with their group.
