

SPR-Pro™

Self Piercing Riveter

Display shows battery usage & life plus rivet set pressure

Adjustable pressure (4 Ton–9 Ton)

Click-in post dies for high pressure applications (stronger than threaded dies)

[Watch Video](#)

- ✓ Rivet aluminum or steel panels with up to 9 tons (adjustable 4T-9T) of force
- ✓ Cold forming process requires no heat and no pre-drilled holes
- ✓ Used for self-piercing, flow-form, solid rivets, flattening, hole punching, and rivet removal
- ✓ Completely cordless solution with LED worklight and intelligent trigger for fine adjustments

Includes medium arm (125mm x 85mm) as standard, 16-pc. die set, 300-pc rivet set, two Li-ion batteries (Makita® style), rapid charger, arm handle, shoulder strap in HD foam ABS storage case.
