Experience

atlantbh 3/2024 – 5/2024

UX/UI Designer Intern

- Created user personas and conducted competitive analysis of CSV file upload features, synthesizing findings into a comprehensive UX report on best practices.
- Designed low-fidelity prototypes and conducted user testing, iterating on designs based on feedback to ensure an intuitive and effective UX.

Well B+P 11/2022 – 3/2024

Web Developer

- Developed responsive and dynamic web applications and websites with React.js, WordPress, and other CMS platforms, prioritizing performance and user experience
- Designed and redesigned websites and e-commerce solutions implementing style guides and components that made 15% conversion rate boost and also increase in website traffic by 20%

Comtrade Group 5/2022 – 9/2022

Intern

- Worked on visual interfaces, wireframes, and streamlining app workflows for optimal user experience during my internship for two applications using Microsoft Power.
