

YBL - Integrated Drug Discovery & Development

Your trusted partner for
New Approach Methodologies (NAM)
based Products & Services

OUR NAM-BASED PRODUCT & SERVICES

iPSC Derived Products

- Healthy donor **iPSC** lines
- Cardiomyocytes
- Hepatocytes

Primary Cells

- Melanocytes
- Fibroblasts
- Keratinocytes

CDMO / CRO Services

- **iPSC** & Primary Cell generation & Characterization
- Assay Services for Drug Discovery & Personal Care
- Custom Assay Development for Preclinical Drug Testing

ACCELERATE YOUR PRECLINICAL DRUG DISCOVERY

iPSC Derived Products

- Improve translation and reduce risk of clinical failure with disease-relevant human **iPSCs**.
- Physiologically relevant cells to support drug discovery, safety testing and disease modelling.
- **CiPA** certified Cardiomyocytes with batch to batch consistency and bulk manufacturing capabilities.

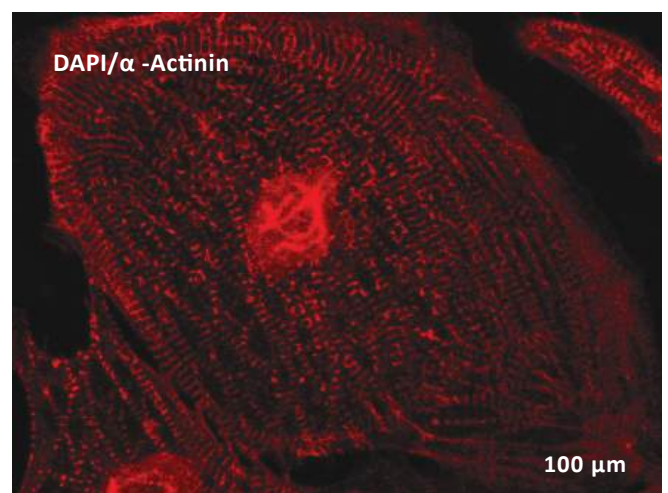

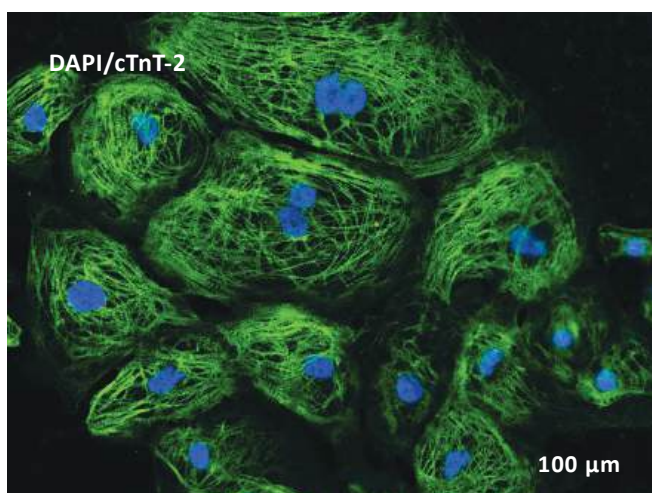

Primary Cells

- High-quality primary cells for precise research in drug discovery and disease studies.
- Customizable for the application of your choice.

CDMO/CRO Services

- **iPSC** cell line generation and Primary Cell isolation along with characterization
- Comprehensive Assay services to validate compound safety, metabolic impact, and molecular mechanisms
- Custom In Vitro Model and Assay Development

SUPPORTING DATA DRIVEN PRECLINICAL DRUG DISCOVERY

OUR STRENGTHS

Functional readouts for **clinically relevant data**

Robust phenotypic characterization for **human-relevant data**

Batch to batch **consistency ensuring reliable performance**

Strong hospital network enabling access to diverse patient samples

Global distributor network ensures seamless availability worldwide

ISO 9001:2015 & ISO 13485:2016 compliance

5000 sq ft GMP compliant facility

Bulk manufacturing capabilities

OUR VALUES

COMMITMENT

CONSISTENCY

FAIRNESS

INNOVATION

RESPONSIBLE BUSINESS

COME JOIN US &
DRIVE INNOVATION FOR MAKING A HEALTHIER WORLD!
