A BETTER CLEAN.®

Fusion Pro

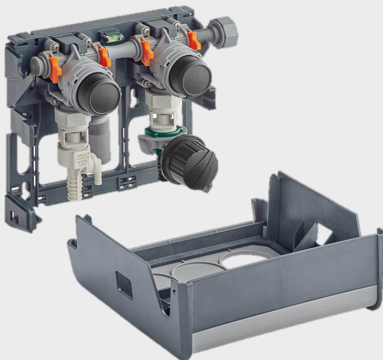

Bottle & Bucket Chemical Dispensing System

FusionPro is the next generation housekeeping chemical dispensing system, and the evolutionary step in our innovative housekeeping technology platform. The FusionPro's modern and clean design makes it ideal for a variety of applications and installations. It uses DEMA's pilot activated water valve, a unique design, built to operate like a traditional valve but with minimal service requirements making it the reliable water valve of choice. Backed by continued service and support, the FusionPro is your next step to finding "A Better Clean."

The Pilot Water Valve

The pilot-activated water valve simplifies service. With fewer components than competitive models, service and maintenance is easier and faster, making it the reliable water valve of choice.

Features & Benefits

- Included to qualifying customers at no additional cost
- Two-tone grey colors allows a clean look for your facility
- Quick connect manifold and water inlet fittings, along with a built-in bubble level simplifies and reduces installation time
- Designed for reduced service with fast access to component
- Large, EZ-grip selector knob for product selection
- Allows for 4-chemical offering for bottles and 1-chemical offering for bucket fills
