

## VIVID WAVE XL: SILICONE - 24V

Indoor & Outdoor Rated Linear Flex Profile - RGB PWM

### PROFILE CAPABILITIES

### CERTIFICATIONS & FEATURES

### TEMPERATURES

#### AMBIENT OPERATING TEMPERATURE:

12W/m: -40°F to 131°F (-40°C to 55°C)

#### AMBIENT INSTALLATION TEMPERATURE:

-40°F to 131°F (-40°C to 55°C)

#### FIXTURE STORAGE TEMPERATURE:

-40°F to 140°F (-40°C to 60°C)

#### MAX MOUNTING SURFACE TEMPERATURE:

185°F (85°C)

#### HUMIDITY (NON-CONDENSING):

0-95%

#### THERMAL MANAGEMENT:

Free Air Convection

A

## MECHANICAL

### ASSEMBLY

Fixtures are carefully assembled using high-quality components to ensure durability and performance. Each unit is built to meet strict specifications, with attention to electrical safety, thermal management, and optical alignment.

### OVERALL & CUTTING LENGTHS

Fixtures feature defined overall lengths and specific cutting increments for easy customization. Cutting must be done at marked points to maintain proper function and consistent light output.

### JACKET COLOR

The white jacket with diffused white lens cover provide a clean, uniform appearance while softening light output for reduced glare. It enhances visual comfort and delivers smooth, even illumination ideal for architectural and display applications.

### BENDING RADIUS

Do not bend smaller than allowed minimum bend diameter, or may cause damage to the light & void warranty.

## OPERATION

### LIGHT ENGINE

RGB Pulse Width Modulation (PWM) light engines deliver stable, flicker-free light at a fixed brightness. They offer consistent color and reliable performance for long-term applications.

### ELECTRICAL

Designed to meet UL, CE, and RoHS standards, they feature overload, overvoltage, and short-circuit protection, along with low EMI and efficient thermal management for safe, reliable operation.

### DIMMING

Dimming controls for 24V DC RGB PWM systems include 0-10V, RDM DMX, and DALI protocols. These options allow smooth, flicker-free dimming while maintaining consistent color and performance across fixtures.

## GENERAL

### WARRANTY

Limited 10-Year Warranty against defects in materials and manufacturing. Coverage applies to properly installed and maintained products. Damage from misuse or improper installation is not covered. G.L.L.S. may repair, replace, or issue credit for eligible claims.

### LUMEN MAINTENANCE

G.L.L.S. static lighting fixtures are tested to IES LM-84 and projected with IES TM-28 to ensure consistent lumen maintenance. Fixtures are designed to retain at least 70% of their initial brightness (L70) over a 10-year lifespan when properly installed and operated.

### CERTIFICATION

Tested to UL1598/2388 Class 2 by Underwriters Laboratory for use in the USA and Canada. Exceeds ANSI C78.377A, CE, and RoHS standards. Must be used under Class 2 ratings to maintain certification.

UL Certificate #: E347880

Report Reference #: E347880-20130503

## TESTING

### OPTICAL TESTING

| TEST                         | RESULTS  |
|------------------------------|--|
| Spectrum Analysis            | IES LM 79<br>(Lumen, CCT, CRI, XY, SDCM, Wavelength) |
| Photometric Distribution     | IES LM 79  |
| Lumen Maintenance & Lifetime | IES LM 84 & IES TM28                                 |

### TEMPERATURE TESTING

Note: Run length is based on a voltage drop calculated using a 0.3 m (0.98 ft) cable with silicone seamless connectors, excluding connector length—refer to specifications for details. Max Run: Dynamic = RGB <100%; Full Load = RGB at 100%. Dynamic load calculations are not recommended for determining max distance of this profile. Silicone products maintain ≤3 SDCM within a single production run and <5 SDCM between production runs.

E

SILICONE SEAMLESS CONNECTOR

- NOTES:
- 1. Connector Tolerance  $\pm 0.02$ in (0.5mm)
  - 2. Cable diameter: Static, Tunable, RGB, RGBW & SPI Silicone = 0.26in (6.5mm) & DMX Silicone = 0.27 (6.8mm)
  - 3. Do not apply force to the feed cable
  - 4. Ensure Max. Cable Lengths are followed according to wire gage to avoid voltage drop

IP68; seamless; precise low profile dimension; high grade quality silicone & anti-wicking ferrule. Recommended for; wet environments; custom predetermined lengths; high/ low temperatures; increased humidity; direct UV exposure; harsh working conditions & increased handling forces during installation. Precision milling and special glue Silicone liquid injection-moulded workmanship enables an almost consistent size between connectors and lightbody, and the transparent terminal of the connector allows the seamless effects spliced end by end. DryWire technology applied on the cable eliminates the capillary phenomenon through wires, which secured the long-term reliability in outdoor or any wet environments. Custom factory assembly.

END EXIT: 2-A-#

END CAP: 2-I-8

SCREW LOCK CONNECTOR ACCESSORY - IP67

NOTE: The tolerance is  $\pm 0.08$ in (2mm).

ANTI-WICKING FERRULE:

- NOTES:
- 1. The anti-wicking ferrule is located at 4.53in (115mm) ( $\pm 0.39$ in [ $\pm 10$ mm] tolerance) from the connector on the cable. For protection against water ingress.
  - 2. The removal of anti-wicking ferrule will void the warranty if any water ingression caused by it.

## ALUMINUM PROFILE - RECESSED - SILICONE GRIP

High-quality 6063 aluminum with thin-wall, light-weight design to fit the fixture tightly. Includes a serrated silicone grip insert designed to hold fixture with additional force. Recommended on projects mounted upside down with lighting mounted recessed in a cavity so only the lens is shown. It is deformation and rust resistant, and cost-effective. Please refer to install manual for proper installation practices.

F

## ALUMINUM PROFILE - FLEXIBLE

It is an expanded design of the flexible aluminum profile, and caters for the continuously streamlined aesthetics of curve shape. The secondary precision cutting process, not only maintains the advantage of clamping force, but also enables the two-way side bending directions with super shape memory. Available for side bending only. Please refer to install manual for proper installation practices

NOTES: 1. 2-L1 refers to two of symmetric L1 in each piece of profile.  
2. (N-1)-L2 refers to (N minus one) of symmetric L2 in each piece of profile.  
"N" hereby stands for its corresponding "Hole Number" in the below table

| ORDER CODE | LEGACY ORDER CODE | STANDARD LENGTH  | L1               | L2              | SLOTTED HOLE     | HOLE # |

## SILICONE PROFILE - FLEXIBLE

An all-in-one mounting profile designed to unleash your creativity. This profile not only provides flexibility in installation methods, but also overcomes bending limitations by offering both top and side bending in a single profile. Fully encapsulated in UL-certified silicone, it excels in UV, weather, and corrosion resistance, making it suitable for underwater, high and low temperature environments. Elegant and square in appearance, it is available in black or white standard colors, or bespoke colors to blend in with the background. Supported by innovative serrated silicone fins, its clamping strength is strong enough to secure any installation method. Side and top bending. NOTE: Side bending will sit higher than the mounting profile, will not be a flush edge. Please refer to install manual for proper installation practices.

NOTES: 1. 2-L1 refers to two of symmetric L1 in each piece of profile.  
2. (N-1)-L2 refers to (N minus one) of symmetric L2 in each piece of profile.  
"N" hereby stands for its corresponding "Hole Number" in the below table

| ORDER CODE | LEGACY ORDER CODE: WHITE | LEGACY ORDER CODE: BLACK | STANDARD LENGTH  | L1              | L2              | SLOTTED HOLE   | HOLE # |
|------------|--------------------------|--------------------------|------------------|-----------------|-----------------|----------------|--------|
| C1-B-G-X-# | CH22FAN1C1SEW            | CH22FAN1C1SEB            | 4.33in (110mm)   | 0.46in (11.6mm) | 3.48in (88.4mm) | Ø 0.12in (3mm) | 2      |
| C1-C-G-X-# | CH22FAN0M2SEW            | CH22FAN0M2SEB            | 7.87in (200mm)   | 0.46in (11.6mm) | 3.48in (88.4mm) | Ø 0.12in (3mm) | 3      |
| C1-3-G-X-# | CH22FAN0M5SEW            | CH22FAN0M5SEB            | 19.68in (500mm)  | 1.14in (29mm)   | 3.48in (88.4mm) | Ø 0.12in (3mm) | 6      |
| C1-5-G-X-# | CH22FAN01MSEW            | CH22FAN01MSEB            | 39.37in (1000mm) | 0.54in (13.8mm) | 3.48in (88.4mm) | Ø 0.12in (3mm) | 12     |

| MA6 = Suspended Wire Kit                         |             |   |
| MA8 = Alignment Bracket - Aluminum Silicone Grip |             |   |

### PIVOT BRACKET

Applicable to all mounting profiles.

Screw: PM 3\*6

Screw: KA 3.5\*25

# VIVID WAVE XL: SILICONE - 24V

Indoor & Outdoor Rated Linear Flex Profile - RGB PWM

## G

### ROTARY BRACKET

Applicable to all mounting profiles.

### SIDE MOUNTING BRACKET

Applicable to all mounting profiles.

# VIVID WAVE XL: SILICONE - 24V

Indoor & Outdoor Rated Linear Flex Profile - RGB PWM

## G

### CEILING CLIP BRACKET

Applicable to aluminum profile - recessed - silicone grip

### SUSPENDED WIRE

Applicable to Aluminum Profile - Silicone Grip. 2 kits of stainless steel wires for 39.37in (1000mm) of profile & 3 kits of stainless steel wires for 78.74in (2000mm) of profile.
