Introduction

At GEP, we believe that meaningful learning happens when every student receives the attention and guidance they truly need. With this vision in mind, we are pleased to introduce the GEP One-to-One Guided Learning Model, a personalised teaching approach designed to help each learner reach their full academic potential.

This booklet provides an overview of how the One-to-One Guided Learning Model works and the value it delivers to both students and our partner institutions. By combining highly qualified tutors, customised learning plans, and continuous academic guidance, the model ensures that students receive focused guidance tailored to their individual needs.

Through this personalised approach, GEP is able to strengthen academic outcomes, increase student confidence, and enhance overall learning satisfaction. At the same time, it offers our partners a strong differentiating feature in today's competitive education environment-demonstrating a clear commitment to high-quality, student-centred education that resonates with prospective students and their families.

Why Choose Us

15+ Years of Expertise:

Innovating online education for over a decade, ensuring a seamless and enriching learning experience.

Elite Tutors:

Highly qualified and passionate professionals who deliver top-tier teaching and mentorship. Every tutor at GEP brings a minimum of five years of teaching experience, ensuring students learn from educators who combine academic expertise with practical teaching excellence.

Intuitive Platform:

A user-friendly system with powerful features for effective and hassle-free learning.

Customised Learning:

Tailored teaching strategies to suit each student's unique needs and goals.

On-Demand Guidance:

Immediate access to expert tutors for quick help, exam prep, and more.

Diverse Subjects:

Comprehensive academic coverage across a wide range of disciplines, from core subjects to specialised fields. Our programmes cater to all levels of study - from primary education through undergraduate and postgraduate studies, up to PhD level.

Total Flexibility:

Scheduling and session formats to fit your lifestyle, from one-on-one to group classes.

Holistic Guidance:

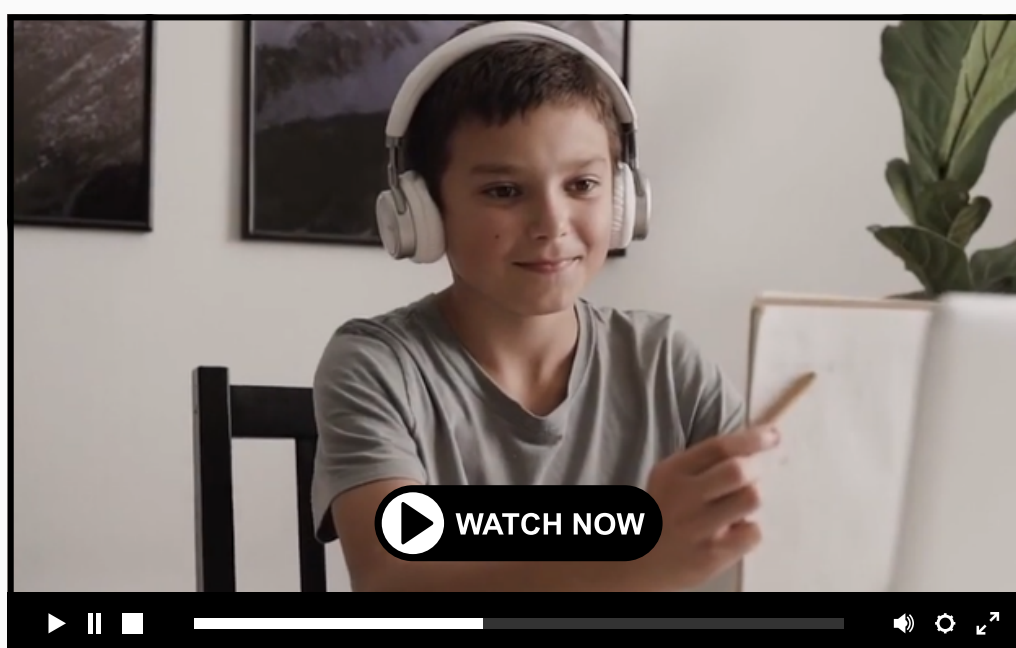

Beyond academics, we provide mentorship and emotional guidance for well-rounded growth.

What is One-to-One Guided Learning?

The One-to-One Guided Learning Model is a structured academic guidance approach built around personalised teaching and continuous guidance. Unlike traditional or generic course delivery, this model ensures that every student receives individual attention and does not have to navigate their studies alone.

Through dedicated one-to-one interaction with experienced tutors, students receive tailored academic guidance, clear guidance, and ongoing feedback throughout their learning journey. This personalised structure allows tutors to adapt teaching methods, pace, and guidance according to each student's unique learning needs.

Whether a learner is in primary school or pursuing advanced studies such as a postgraduate or PhD programme, our skilled academic team provides guidance across a wide range of subjects. By offering customised guidance and expert mentorship, the One-to-One Guided Learning Model helps reduce the pressures of academic life while empowering students to achieve strong and confident outcomes at every stage of their education.

Walk through of our Tutoring Process

Traditional Teaching vs GEP One-to-One Guided Teaching Model

Aspect	Traditional Teaching	GEP One-to-One Guided Teaching Model	Impact on Students
Tutor Expertise	Tutors may vary in experience; often minimal real-world exposure.	All tutors have minimum 5 years' experience in their relevant field.	Students benefit from consistent, expert-level teaching grounded in practice.
Learning Plans	Generic syllabus delivery with little personalisation	Customised teaching plans designed for each student's goals, pace and background.	Learners feel the education is tailored, increasing motivation and achievement.
Assignment Guidance	Instructions given, but limited help with interpretation.	Step-by-step guidance documents, sessions, and draft feedback before submission.	Higher-quality assignments and improved grades due to clear direction.
Feedback	Often limited to marks or short comments after submission.	Detailed formative feedback on drafts, plus additional feedback if required.	Students learn from mistakes early, improving performance before final grading.
Student-Tutor Interaction	Largely one-way delivery (lectures, notes, and self-study).	Hand-holding approach with mentoring, guidance calls, and constant interaction.	Students feel guided and engaged rather than isolated.
Technical & Administrative guidance	Students must navigate portals, submissions, and processes independently.	Submission uploading guidance, portal guidance, and induction calls provided.	Reduces stress, ensures smoother academic experience.
Overall Philosophy	Education seen as information delivery.	Education seen as a guided partnership and mentorship.	Builds confidence, life skills, and academic excellence.

Student Testimonials

My experience is a very positive one. I did the level 5 Diploma in Business, I had the flexible time to finish my assignments, and so was able to work whenever I had time. When I get stuck with something that I was not certain about, I had the help of Miss Dilusha which was perfect for me, apart from explaining to me every detail until I was confident with it, she was super available for me, sometimes even on a Sunday when I will be working my assignments, she makes her best and helps me whenever I needed to. I am very satisfied and now I am trying to do the Level 6 Diploma in Business, which will be more harder, but I am definitely in good hands. Looking forward to work with you again Miss Dilusha, very glad I will have you again.

Student Resources

Full Course Teaching – Structured

For students looking to master a full course, our structured programme provides 2-hour modules, each packed with valuable content and interactive feedback. In every module, students receive in-depth draft feedback to refine their understanding, along with a final review that solidifies their learning. This programme ensures comprehensive guidance, fostering confidence and deep comprehension throughout the course.

Assignment Guidance – Expert Feedback

For students working on assignments, our guidance ensures success from start to finish. We break down the requirements, helping with assignment structuring and giving valuable draft and final feedback. Perfect for Bachelor's-level students, this programme consists of three sessions per assignment, with flexibility to add more based on the student's needs. Get the guidance you need to excel.

ESL Preparation – From Basics to Proficiency

Prepare for every aspect of the ESL test with our thorough, 50-session course. Covering all levels (01–05), this programme strengthens skills in listening, reading, writing, and speaking. Each session targets essential areas, providing extensive practice and the strategies needed to achieve a high score on the ESL exam.

Subject-Specific Tutoring – Customised to Your Syllabus

Need extra help with a specific subject? Our tutoring adapts to any syllabus you provide, with at least 20 hours of focused guidance. Designed to align directly with your academic requirements, our sessions build a solid foundation for understanding complex topics, reinforcing key concepts, and ensuring students feel well-prepared for exams and assignments.
