

PIVOT BRACKET

Specifications & Installation Manual

The Pivot Mounting Bracket is a versatile accessory designed to pair seamlessly with all types of mounting profiles, offering enhanced flexibility for dynamic lighting installations. Engineered for applications where fixtures may need to be angled or adjusted, this bracket allows for smooth pivoting, making it ideal for highlighting architectural features, directional lighting, or creative design layouts. Durable and easy to install, the Pivot Mounting Bracket adds both functionality and adaptability to your lighting setup. Available for all profiles.

DIMENSIONS

PIVOT BRACKET

Installation Manual

STEP 1:

Remove the upper screw from the pivot mounting bracket.

STEP 2:

Fix the pivot mounting bracket and mounting profile tightly by the screw.

STEP 3:

Repeat step 1 & step 2 for the remaining brackets and secure at least 2 locking points for each mounting profile, and the equal interval is more recommended.

WARNING: Keep pivot mounting bracket and mounting profile parallel from the side view.

STEP 4:

Rotate pivot mounting bracket till the showing up of the unfixed screw hole to facilitate the installation with mounting surface as per the pre-marked hole.

STEP 5:

Fix pivot mounting bracket to mounting surface by KA3.5*25 screw.

STEP 6:

Adjust the angle of mounting profile to the one required.

STEP 7:

Tighten the side screws of pivot mounting bracket to avoid loosened locking point.
