

S160

Aluminum Profile - Raceway Suspended

High-quality 6063 thin-wall aluminum, light-weight design featuring hidden cables and suspended by cables from the ceiling. The raceway space is enough to conceal seamless connectors with bottom feed and the general male/female connectors. It is superb for the facade where tidiness is required and the scenarios that lack of space for wiring. Please refer to install manual for proper installation practices.

ORDER CODE

MOUNTING PROFILE TYPE	STANDARD LENGTH	PROFILE	COLOR	BENDING
A9 = Aluminum Raceway Suspended	3 = 19.68in (500mm) 5 = 39.37in (1000mm) 6 = 78.74in (2000mm)	C=S Series (S160/S270)	1 = Standard	1 = Side
