

Brochure 2026.

Preface.

Picture this: You're seated at the kitchen table, your work laid out in front of you, but the numbers remain confusing, and the words on the page seem to fade into obscurity. You've given it your best effort, but it feels like you're stuck. Sound familiar? Many students experience this. You're eager to succeed, but you don't always know where to start or what the best approach might be.

No two students are the same, **each having their own distinct way of learning**. This lies at the **heart of our approach**. We don't just help you with your homework or exams; we are here to ensure you grow and build confidence in your abilities. We teach you not only **what** to study but also **how** to study most effectively, enabling you to reach your goals.

Whether you're grappling with homework, struggling with a particular subject, or striving to speak a foreign language with fluency, we are here to support you.

Quality education, period.

About Studied.

Our mission.

Our mission is simple: “We strive to offer good, high-quality education that aligns with your personal needs and goals.”

Our vision.

Why do we make such a big deal about it? Because high-quality education should be accessible to everyone. No matter the circumstances.

However, current education systems are under considerable strain:

- The **teacher shortage is worsening**, with class sizes continuing to grow, making personal attention scarce.
- The need for **additional support** among pupils and students is **rising**.
- The **quality of education** is rapidly **declining**.
- The pace of **technological developments** is **hard to keep up with**.

As a parent, pupil, or student, you may feel unsure about what to expect. We understand your frustration. Things must change. At Studied, we are determined to do things differently.

How do we do that?

Everyone learns in their own way. And so do you. That's why we believe in personalised education. We take the time to understand your needs, ensure you receive the attention you deserve, with an approach that works for you.

We promise you:

- **Personalisation:** Education isn't a one-size-fits-all approach. We are dedicated to offering education that meets your needs and goals, enabling you to achieve your full potential.
- **Quality:** Quality is at the heart of everything we do. We are committed to offering education that isn't only of the highest standards, but that's also transformative.
- **Support:** You deserve the best experience, no matter your preferences or goals. We are here to support, motivate, and help you move forward every step of the way.

General education.

Homework support.

Sometimes, a little extra help with your homework is just what you need.

Homework support assists you in **organising, planning, and completing your assignments**. While you work independently, your student-tutor is always nearby to provide help when you have any questions.

Who is it for?

Our homework support is suitable for pupils in primary education, high school students, as well as students in vocational, college, or university programmes (MBO, HBO, and WO). Whatever the subject or topic, we ensure that our homework support meets your individual needs.

What does it entail?

- **Planning and organisation:** We help you create a clear and manageable schedule, so you know exactly what to do and when to do it.
- **Developing study skills:** Beyond completing your assignments and homework, we teach valuable study techniques that enable you to work independently in the future.
- **Focused and prepared:** We help you in completing your homework without distractions and ensure you're well-prepared for exams by practising together.

Homework support		
	Single lessons	Ongoing support
Individually	€ 28,00 per hour	€ 26,00 per hour
Groups	* € 18,20 per hour	* € 16,90 per hour

* *per person*

Tutoring.

Are you struggling with a specific subject or topic? Tutoring provides **targeted, subject-specific support** to help you master a subject or certain aspects of the material.

Who is it for?

Our tutoring is suitable for pupils in primary education, high school students, as well as students in vocational, college, or university programmes (MBO, HBO, and WO). Whether you're a high school student struggling with physics or a university student needing extra help with statistics, we personalise our approach to meet your needs.

What does it entail?

- **Subject-specific support:** We will break down tricky topics, explain difficult concepts, provide in-depth exploration, and help you through areas where you need our help the most.
- **Building confidence:** We work not only on your subjects but also on boosting your confidence, so you can approach your studies with a positive mindset.
- **Developing study skills:** In addition to mastering your subjects, we help you improve your study techniques, so you become a more effective learner overall.

Tutoring		
	Single lessons	Ongoing support
Individually	€ 39,00 per hour	€ 37,00 per hour
Groups	* € 25,35 per hour	* € 24,05 per hour

** per person*

Coaching.

Finding the right balance between school, your job, social life, and personal growth can sometimes feel overwhelming. Coaching provides the help you need to **achieve your goals** and **better manage the challenges** that might come your way. It's more than just helping out with your studies or work. It's about your **personal growth** too.

Who is it for?

Our coaching is designed for high school students and students in vocational, college, or university programmes (MBO, HBO, and WO). You're not just looking for help with your studies, but also help with personal development, motivation, and finding the right balance.

What does it entail?

- **Study and career counselling:** We will help you make decisions about school pathways, courses, and future career options. Together, we explore what suits you best.
- **Time management:** Finding the right balance between studying, working, and your social life can be hard. We help you allocate your time effectively and focus on what matters most.
- **Developing study skills:** We work with you to improve essential skills like planning and prioritising, supporting not only your academic progress but also your future success.

Coaching		
	Single sessions	Ongoing support
Individually	€ 39,00 per hour	€ 37,00 per hour
Groups	* € 25,35 per hour	* € 24,05 per hour

* per person

Training programmes.

Are you looking for an effective and structured way to **learn a lot in a short(er) amount of time**? Or perhaps you want to **take your knowledge to a higher level**?

Training programmes are the solution. They allow you to dive deep into the material, learn more efficiently, and better understand the connections between different topics.

Who is it for?

Our training programmes are intensive courses tailored to the specific requirements of each subject¹. They are suitable for pupils in primary education, high school students, as well as students in vocational, college, or university programmes (MBO, HBO, and WO).

Different types of training programmes

We offer a variety of training programmes for different education levels:

- **Training programmes attainment test:** For pupils in years 7 and 8 preparing for the compulsory attainment test (formerly known as Cito test). These programmes focus on core subjects such as maths, language, and reading comprehension.
- **Exam training (high school):** For high school students preparing for their final exams. We offer focused training programmes on key exam topics, practising with mock exams.
- **Exam training (MBO, HBO, WO):** For students preparing exams. We help you review the course materials and ensure you're well-prepared for the content of your exams.

Training programmes		
	Single lessons	Complete programme
Individually	€ 36,00 per hour	€ 33,00 per hour
Groups	* € 23,40 per hour	* € 21,45 per hour

* per person

Please note!

Our training programmes work a bit differently from our homework support, tutoring, language lessons, or coaching. They follow a **fixed programme** with **predefined lessons and goals**.

¹The courses currently offered are limited to subjects for which we are developing programmes. The availability for higher education (MBO, HBO, WO) may vary depending on the institution. Therefore, we also provide training programmes that are independent of educational institutions.

Language education.

Language expands your horizon (quite literally).

Learning a new language on your own can be challenging. There's often little time or structure to get started, and without any help, making progress can feel difficult. We understand that. Many of our tutors either come from the country where the language is spoken, have lived there, or have a direct connection to the culture.

At Studied, it's not just about mastering grammar or learning new vocabulary. It's about finding joy in learning, building confidence, and discovering the world through language.

Do you want to improve your speaking skills? Or perhaps learn to write professional emails more effectively? Maybe you simply want to feel more comfortable speaking another language. Whatever your goals, we are here to help.

Mastering a language, **period.**

Language lessons.

Sometimes you may want to learn a new language for work, as a hobby, or to communicate more effectively in an international environment. Are you looking to learn Korean for your job? Preparing for a state exam? Or perhaps you want to learn Spanish to apply for a hospitality management programme? Our language lessons provide **targeted, in-depth, and personalised support** to help you develop your **language skills**, whether it's speaking, listening, reading, or writing.

Who is it for?

Our language lessons are for anyone looking to learn a new language or improve their existing skills ². Need to learn a language for work or are you relocating abroad? We ensure the lessons help you learn the language in the way that works best for you.

What does it entail?

- **Language-specific support:** You'll receive help tailored to your specific goals, such as improving your speaking, listening, reading, or writing skills.
- **Building confidence:** Throughout the lessons, we focus not only on the language itself but also on boosting your confidence, enabling you to engage in conversations or deliver presentations with ease.
- **Developing study skills:** We also focus on enhancing your study techniques, ensuring you not only master the language but also learn more effectively overall.

Our language lessons are available in a variety of languages and across all CEFR levels, from beginner (A1) to advanced (C2).

Language lessons		
	Single language lessons	Ongoing support
Individually	€ 39,00 per hour	€ 37,00 per hour
Groups	* € 25,35 per hour	* € 24,05 per hour

* per person

² Our language education is **SOLELY** intended for learning a language outside of general education. For pupils in primary school, high school students, and those studying at MBO, HBO and university, we offer language education through our **tutoring** services.

Language courses.

Would you like to **master a language quickly and effectively**? Or perhaps **improve specific language skills**, such as reading and listening? A language course can help. These intensive programmes allow you to fully immerse yourself in the language, learn faster, and develop a deeper understanding of it.

Who is it for?

Our language courses are suitable for anyone looking to take a focused approach ². You choose a programme that helps you progress quickly and in a structured way. Whether you want to improve your English for work or learn Spanish to converse with locals, you'll receive the support that suits your needs.

What does it entail?

- **Structured approach:** You'll follow a fixed programme where all lessons and goals are predefined. This ensures consistency and clarity.
- **Building confidence:** Throughout the course, we work not only on your language skills but also on your confidence, so you can apply the language with assurance in various situations.
- **Quick, effectively and structured:** Our language courses are intensive and aimed at fast progress. With clear goals to keep you motivated, you'll work towards achieving a higher language level in a targeted and efficient manner.

The language courses are currently available for **Dutch**, **English**, **Spanish** and **Chinese** (Mandarin) at A1 and A2 levels.

Language courses		
	Single language lessons	Complete programme
Individually	€ 36,00 per hour	€ 33,00 per hour
Groups	* € 23,40 per hour	* € 21,45 per hour

*per person

Please note!

Our language courses work a bit differently from our homework support, tutoring, language lessons, or coaching. They follow a **fixed programme with predefined lessons and goals**.

Our approach.

A photograph of three people in a modern office setting. Two women and one man are seated around a light-colored wooden table. The woman on the left, with blonde hair, is smiling and gesturing with her hands. The woman in the center, wearing a white t-shirt, is also smiling and holding a pen. The man on the right, with curly hair, is seen from the back, wearing a striped shirt. On the table are a yellow mug, a glass of water, and some papers. The room has large windows in the background, and the floor is made of light-colored wood.

Quality education, period.

And that starts with a clear and structured approach, so you know exactly what you can expect. From the initial introduction and intake interview to the final evaluation, we ensure you receive the best support and achieve your goals, with an **approach that works for you**.

Request.

Interested in our support? It all starts with a request. You can easily get in touch via our [website](#), by sending us an [email](#), leaving a message on WhatsApp, or a phone call. Whatever works best for you.

Once we have received your request, one of our team leaders will contact you as soon as possible. Together, we will discuss the possibilities and schedule an intake interview straight away.

Intake interview.

During the intake interview ³ we will get to know you and (for underaged pupils and students) your parent(s) or guardian(s). This interview takes place via Google Meet and includes one of our team leaders and your student-tutor(s).

Why do we have an intake interview? Simple. The intake interview is primarily about discussing your current situation and identifying the challenges you're facing.

We will also explore the kind of support you need to achieve your goals. Based on this, we will collaboratively create an Action Plan.

Action Plan.

During the intake meeting, the team leader, together with you and your student-tutor(s), will create a personalised Action Plan ³. Think of it as the blueprint for your support. It provides a clear overview and outlines the steps we will take to help you achieve your goals and potential.

³ This applies to ongoing support/complete programmes and **DOES NOT** account for single lessons/sessions.

Agreements.

Your Action Plan forms the basis for the agreements we make together ³. We will decide where to focus our efforts: Which subjects will we cover? How much time will we dedicate to each subject?

Sometimes, we may choose to focus one or two subjects initially, so you don't feel overwhelmed. We continuously evaluate and adjust the agreements as needed.

Trial lessons.

The first lesson is a trial lesson ³. The trial lesson gives your student-tutor a chance to get to know you better. Together, you'll discuss what is needed to provide the best possible support. You'll also briefly review the Action Plan and agreements. This part typically takes no longer than 15 to 30 minutes. The remainder of the lesson is spent working on your subjects, giving you a first-hand experience of how we work.

The trial lesson helps determine whether there's a good match between you and your student-tutor, and whether the support meets your needs. Was the trial lesson a success? Great! The lessons will continue immediately, and the trial lesson will be charged like any regular lesson.

Not satisfied with the trial lesson? No problem, both the first and, if necessary, a second trial lesson are completely free of charge.

Lesson plans.

To ensure structure and consistency, we make use of lessons plans ³. Together with your student-tutor, you'll aim to plan your lessons as far in advance as possible. This schedule will be recorded in our web application ⁴, so you'll always know where, when, and what your lesson will cover.

We understand that life can be hectic and busy for both you and your student-tutor. Planning ahead can be a challenge, which is why we make it easy to adjust the lesson plan if anything changes. While we aim for a schedule that extends to the next evaluation, we also leave room for flexibility.

⁴ The web application is our digital platform/environment for administration and communication at Studied. You can log in at www.studied.app.

Start of support.

After a successful trial lesson, your support starts ³ in line with the Action Plan and the agreements made. You'll receive a registration form so that everything can be finalised.

The lessons can be conducted either individually or in small groups (max. 4 people). Do you prefer in-person or online support? It all depends on your preferences, the agreements made, and the type of support you choose (tutoring, homework support, coaching, training programmes, or language lessons/courses).

We listen to your needs and consider your learning style, ensuring you achieve your full potential.

Please note!

Our training programmes, language courses, and single lessons/sessions follow a different process when starting the support.

Single lessons/sessions do not include an intake interview, Action Plan, or trial lesson. For training programmes and language courses that involve a complete programme, these elements are optional.

Please be aware that training programmes, language courses and single lessons/sessions only begin once your registration form has been received.

Progress and evaluations.

We will regularly evaluate your progress ³. After each lesson, a lesson report will be recorded in our web application. This report helps us effectively monitor your progress.

In addition, we schedule evaluation interviews to discuss how things are going. Are there any adjustments needed to the Action Plan or the agreements? Your input is crucial here. Together, we ensure that the support continues to meet your needs.

At the end, there will always be a final evaluation interview. During this interview, we discuss together how to proceed: will your support be extended, adjusted, or concluded?

The evaluation interview always includes you. If parent(s) or guardian(s) do not wish to have an evaluation interview or are unable to attend the planned interview, they will receive a brief summary of the evaluation interview by email.

End of support.

It all ends when your goals are achieved, for example, after passing an exam or when you can continue independently. Your support can also be ended early, depending on what you want and need.

When the support ends, we ensure everything is neatly wrapped up so that you can move forward with confidence.

Better grades, period.

Our guarantees.

Zet een punt
achter je
onvoldoende

Personalised education is more than teaching.

At Studied, it's not just about what we do, but how we do it. We take the time to understand your needs, ensure you receive the attention you deserve, and provide an approach that truly works for you. Our guarantees are more than just some fancy words, they lie at the heart of everything we do.

Each of our core comes with guarantees that clearly outline what you may expect from us. They demonstrate how we deliver on our promises and give you the assurance that we are here to help you every step of the way.

Personalisation.

Education isn't a one-size-fits-all approach. We are dedicated to offering education that meets your needs and goals, enabling you to achieve your full potential.

Guarantee – Tailored education: Everyone learns in their own way. You do too. If you feel like your Action Plan isn't sufficiently tailored to you after the first month, we offer you a one-hour review lesson. During this lesson we reassess and adjust your Action Plan, ensuring it aligns perfectly with you.

Guarantee – Perfect fit: We want you to start on the right foot! If you're not completely satisfied with your trial lesson, we offer you another trial lesson. Whether it's a different approach or a new student-tutor, we are committed to finding the perfect fit for you.

Quality.

Quality is at the heart of everything we do. We are committed to offering education that isn't only of the highest standards, but that's also transformative.

Guarantee – Lifelong learning: Quality education doesn't stop in the classroom; you take it with you. To ensure the highest quality of education, we expect dedication, effort and active participation. We provide you with the tools, resources, and support needed to excel. In return, we ask you to do your homework, be on time, and come prepared.

Guarantee – Consistency is key: Quality education is built on structure and consistency. We aim to provide consistent and clear lesson plans, helping you concentrate better, reduce stress, and manage your time efficiently. By following a structured schedule, we strive to achieve the best possible outcomes.

Support.

You deserve the best experience, no matter your preferences or goals. We are here to support, motivate, and help you move forward every step of the way.

Guarantee – Trial and error: If you fail your test or exam, we offer you a one-hour review lesson with your student-tutor to go over the materials again. This lesson is designed to identify areas for improvement and help clarify any misunderstandings. Stay with us, and you'll get this lesson along with the revised Action Plan from us.

Guarantee – Flexibility: We understand that life can get quite hectic and demanding. You can reschedule your lessons and interviews if you inform us **before** 08:30 on the day of your scheduled lesson. Just get in touch with us, and we will work together to find a suitable solution for you.

Let's not forget.

In addition to our personalised education, there are a few practical matters that are useful to know. Below, we have outlined the key points, so you'll know exactly what to expect.

Invoicing.

After a successful trial lesson, you'll receive a registration form. Here, you can specify the account from which the invoice will be debited. The lessons for a given month are billed at the end of that month. We charge based on the actual duration of the lessons, rounded to the nearest quarter-hour (15 minutes). You won't need to manually transfer the payment, as the amount will be automatically debited after 14 days.

We understand that not everyone can use direct debit. For those, we offer the option of making a manual transfer. To arrange this, we ask that you contact one of our team leaders to organise it together.

Subject agreements.

To ensure quality and success, we maintain a minimum hours agreement for our services³. This means that during the intake interview, we will agree on a minimum number of hours per subject per week. These agreements remain in place until the next evaluation.

If you've chosen a training programme or language course, you simply follow the hours set for each lesson or programme.

Please note!

During the evaluation interview, we will check whether the agreed hours have been completed. **If you have taken fewer lessons than the minimum hours agreed, we will charge the difference.** This is done by multiplying the missing hours (rounded to the nearest quarter-hour) by the hourly rate. This amount will appear on the invoice for the month in which the evaluation interview takes place.

Single lessons and sessions.

Do you want to quickly refresh or brush up on certain knowledge? Or would you like to get acquainted with our services? Our single lessons and sessions offer the flexibility you need, but it's your responsibility to direct the focus based on your goals.

- **Who is it for:** For pupils and students who require one-off or short-term help, for example, when preparing for tests or exams.
- **Features:** Easy and flexible to schedule, providing quick help with specific questions or topics where you need that extra boost.

Since single lessons and sessions are designed for short, practical help, they **do NOT include an intake interview, Action Plan, agreements, or trial lesson.**

Ongoing support and complete programmes.

Our ongoing support provides tailored assistance. We listen to your needs and adapt the lessons and the materials to what works for you.

- **Who is it for:** For pupils and students who want to work systematically towards long-term goals, such as improving grades or developing study skills.
- **Features:** Regular lessons designed to help you achieve goals that require more time, so you can finally get a handle on subjects or topics you've been struggling with.

Cancelled lessons.

Sometimes, unexpected events like illness or other unforeseen circumstances arise. No worries! If you cancel the lesson **before 08:30** (CET/CEST) on the day of the lesson, **no charges will apply**. Just let us know as soon as possible, and we will work together to find a suitable solution for you.

Neglected lessons.

If you cancel **later than 08:30** (CET/CEST) on the day of the lesson, or if a lesson cannot proceed because you unexpectedly fail to attend, this will be considered a neglected lesson. Neglected lessons **will be charged in full**.

If there are exceptional circumstances or a case of force majeure, please let us know, and we will work with you to explore the possibilities.

Lesson materials.

You're responsible for bringing your own lesson materials, such as school and study books, as well as any assignments. If needed, we will provide additional materials, such as practice exercises for your exams. Together, we work towards thorough preparation.

If certain materials are difficult to obtain, or if you are missing answer keys, we will see if we can arrange these for you.
