CLIENT OUTCOMES

Client ratings, monitored from their first session at SASS, then every 4 sessions.

My level of functioning:

	2020/21	2021/22
Connection with others 	Up 0.7 points ↑	Up 1.2 points ↑
Sleep 	Up 0.7 points ↑	Up 0.7 points ↑
Energy levels 	Up 0.5 points ↑	Up 1.1 points ↑

Our clients continue to report seeing improvements with their energy levels, their sleep and also when they are connecting with others. Clients rate these on a scale of 0 to 10, where 0 equals poor and 10 equals excellent.

Symptoms felt in past week:

Worry/anxiety 	Down 0.8 points ↓	Down 0.7 points ↓
Low mood 	Down 0.5 points ↓	Down 0.7 points ↓
Anger 	Down 0.2 points ↓	Down 0.8 points ↓
Overwhelmed 	Down 0.6 points ↓	Down 0.8 points ↓

Clients report that they are feeling worried/anxious, angry, overwhelmed and in a low mood less often. The ratings indicate how frequently the client has felt these emotions over the past week, with 0 equalling never and 10 equalling all the time.

My experience with SASS:
