Theme of the month: SHARKS

What We Learned

January was an exciting and fun-filled month in our classroom as we explored our Sharks theme! The children truly enjoyed learning about these fascinating ocean creatures through hands-on activities, stories, music, and science.

Throughout the month, we completed a variety of shark-themed works including shark poking activities, worksheets, cutting work, and other engaging fine-motor tasks. During circle time, we enjoyed shark songs, participated in meaningful discussions, and built new vocabulary while learning fun facts about sharks.

To bring our learning to life, we also enjoyed virtual field trips and realistic science videos that helped the children understand sharks in a more visual and scientific way. The children were amazed to learn that there are over 500 different types of sharks, and we focused our learning on five special sharks: Tiger Shark, Nurse Shark, Whale Shark, Hammerhead Shark, and the Great White Shark!

Along with our shark studies, we also embraced the season by incorporating winter-themed crafts, including snowflakes and snowman projects, plus winter circle time stories and a variety of shark-related books. It was a wonderful month full of learning, creativity, and discovery!

Field Trip

Brevard Zoo

One of the biggest highlights of January was our amazing field trip to the Brevard Zoo! The children had an unforgettable experience exploring the zoo and seeing so many animals up close. Some classroom favorites were the monkeys, and the Africa area was absolutely phenomenal! The children loved observing the animals, talking about what they saw, and connecting it back to our classroom lessons. It was truly a fun and memorable day for everyone!

Martin Luther King

We read books and learned about the accomplishments of our great hero.

100 DAYS of School

Celebrating 100 days of school was so much fun... counting till 100, coloring and making 100 days of school goggles.

THANK YOU TO...

the Parents of the Month

A special thank you to our January Parents of the Month: Mrs. Usmani, Mrs. Simon, Mrs. Vicars, and Mrs. Nisson.

We **truly appreciate** your support, involvement, and partnership.

It helps make our classroom experiences so meaningful and special.

The children had so much fun with Cooper's grandma. Thank you for coming in and helping our little friends.

Birthdays:

Pioneers: Samarth turned 4!

Adventurers: Julian turned 5!

Upcoming Events

February 25th and 26th:

Teach your Parents Day
