Neck Wrinkle Care

Elasticity Care

Jowl Lifting

Specification

Power	0.2 to 2J/cm
Monitor	LCD Touch Screen
Cartridge	S7 7.0Mhz, 1.5mm
	M7 7.0Mhz, 3.0mm
	D4 4.0Mhz, 4.5mm
	D7 7.0Mhz, 4.5mm
Spacing	L4 4.0Mhz, 13mm
	0.5 to 10.0mm
	5 to 25mm
Electrical Requirement	AC 100-240V, 50/60hz
Dimension (Device only)	W 400 x D 455 X H 460
Weight (Device only)	15Kg

About Hironic?

Hironic Co., Ltd. is a leading medical device manufacturer, taking the top position in the domestic MFU lifting and cryo-fat reduction market. It ambitiously presents variety of new products with substantive R&D investments of skin lifting device (DOUBLO Series), cryo-fat reduction devices (MICOOL Series), Fat reduction solution device (Slimus) and more. Hironic's products are installed in approximately 3,000 sites worldwide at present while being recognized as a global standardized medical & aesthetic device. Based on all these enthusiastic efforts and great success, Hironic is one of the best medical & aesthetic companies listed in the Korean Stock Market (KOSDAQ).
