

With carefully crafted and continually upgraded MFU technology in **DOUBLO GOLD**, you can enjoy a more youthful and lifted appearance without having to undergo the downsides of intensive surgery.

Dealing with skin laxity
and deep wrinkles

Fast and effective procedure
with no downtime

Personalized treatment for **ensuring**
safety & achieving desired results

What the Patients Say

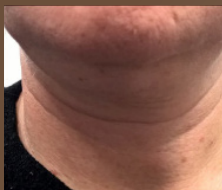

"DOUBLO GOLD lifting is a non-invasive way to make your skin feel fresher and firmer over time. The procedure was easy to tolerate, and I appreciated that I could immediately resume my daily activities. If you're looking for a more attainable path to a refreshed appearance, this is it."

- Alex, 36 y. o.

"DOUBLO GOLD lifting is the real deal. It helped me regain a more youthful appearance without the risks and costs of surgery. The procedure itself was more comfortable than I expected, and it's an investment that's showing slow but steady results in terms of skin firmness and texture. If you want a natural look, it's worth considering."

- Raul, 42 y. o.

Why DOUBLO GOLD

DOUBLO GOLD lifting relies on unique technology, which has been upgraded over the years to achieve the perfect balance of customer experience & results.

- ✓ **Optimal energy levels** for a comfortable procedure
- ✓ **An 8-minute treatment** with the two-way round shooting mechanism
- ✓ **Precise shots at selected depths** for the best results

How It Works

MFU creates immediate skin tightening by generating heat and coagulation zones at the SMAS level. This reduces sagging and wrinkles, offering a noticeable lift. Yet, the lasting benefits go further. MFU stimulates collagen and elastin production over time, ensuring gradual, enduring improvements in skin texture and firmness.

Q

When will I see the effects?

A. DOUBLO GOLD lifting is known for its noticeable post-treatment effects, with results typically peaking around 10 weeks after the procedure.

Q

Is there downtime?

A. Focused ultrasound lifting is a non-invasive procedure that requires very little to no downtime. You can typically return to your daily life immediately.

Q

Is it painful?

A. The majority of patients report feeling only mild or no discomfort during the procedure. However, if you have highly sensitive skin and experience discomfort due to heat sensations, make sure to consult with your doctor before the treatment.

Q

What are the side-effects?

A. Focused ultrasound lifting is considered one of the safest and most effective non-invasive cosmetic procedures. In fact, DOUBLO GOLD is sold in more than 60 countries and holds corresponding safety certifications, including the European Medical CE, and others.
