### Vision Benefits Simplified

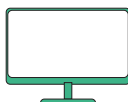

Members have the option of using any provider and receiving the same benefit. Mint Health offers a hybrid solution giving members the best of both worlds. Members can access contracted vision providers at [minthealthplans.com/find-care](https://minthealthplans.com/find-care) to avoid having to submit for reimbursement. These providers have agreed to submit claims and also give great discounts to our members. Don't see your provider in-network? No problem. Members may choose to go to providers not participating with the Cache Premier Vision Network and still receive the same benefit. In these cases, members will be required to submit their claim for reimbursement using one of the following methods
