

## Research Department – Volunteer Opportunities

Ecological monitoring at the *rare* Charitable Research Reserve provides invaluable data about the health of our ecosystems.

**Volunteers are welcome and appreciated!**

### Program: Salamander monitoring

**Overview:** Help support *rare*'s annual salamander monitoring by walking sampling transects, searching for and identifying salamanders, and recording data

**Where:** Sites located close to the main *rare* office (1679 Blair Rd, Cambridge). Carpooling to sites is available.

**When:** Monitoring will run twice weekly in September and October (weather-dependent), leaving in the morning and lasting roughly 3-5 hours.

**Preparation:** Dress and pack for a few hours hiking outdoors, considering weather, sun, ticks and other biting insects, etc. *No prior salamander expertise required!*

If interested, please email [research@reresites.org](mailto:research@reresites.org) for more information and scheduling. Thank you!
