

## Manager of Finance & Administration

### Who You Are

Do you love numbers, and do data, well-organized systems and reporting excite you? Then you're in the right spot! You are someone who is personable, with a keen eye for financial matters and an interest in ongoing effective operations in a not-for-profit environment. You foster meaningful relationships working as part of a team and community of various backgrounds while also being able to independently get things done. You have high expectations for yourself and your work, while also being willing to learn from failure. You have an interest in continued learning and making the world a more sustainable place.

### Who We Are

We are a community-based urban land trust and environmental institute that stewards over 1,550 acres of land in Waterloo Region/Wellington County. The lands we live on, work on and derive benefit from were taken away from the original stewards, and it is our goal to restore that connection and to work towards building ethical, reciprocal relationships. This includes learning about and acting on our responsibilities as settlers and unlearning our cultural and historical biases. Most of the land currently in our care is located within the Haldimand Tract, which is territory of the Onkwehon:we peoples of the Six Nations of the Grand River and the Mississaugas of the Credit Anishinaabe First Nation. In addition, we steward land at the border of the Upper Canada Treaty No. 3 and Treaty 19 which is also territory of the Mississaugas of the Credit. We honour and respect the sovereignty of these First Nations and their ancestors.

Conservation is our priority, and our goal is to make the environment more relevant in peoples' lives through environmental research and education. Modelled after an academic institute or research lab, the culture we strive for is a casual work environment that is positive, supportive, collegial and often experimental with an appetite for taking risks. As a registered charity, we are not working towards making the biggest profit for a corporation, but working towards finding the best ways on how we want to live sustainably. You can find more about our culture and values, who we are looking for and what you can expect in the Frequently Asked Question section at: <https://www.rare.org/about/careers#jobs>
