ECONOMICS

Five questions for your senior leader line manager to ask you about economics

1. How do you ensure pupils are able to understand economics as a discipline rather than just learning about the economy?
 2. How do you make abstract economic ideas concrete for pupils?
 3. How do you assess understanding in economics rather than recall of examples?
 4. How do you help students connect economic concepts to real-world applications?
 5. What professional readings or associations inform your curriculum design?
-

Three documents for your senior leader line manager to read about economics

1. The Economist's Craft by Michael S. Weisbach
2. The Economy – CORE Curriculum
3. What Students Should Learn in Economics – Journal of Economic Perspectives
