

Tips For Pricing Your Own Air

We love referencing Google Flights for pricing estimates. We do typically stay away from Budget airlines such as Frontier, Allegiant, and Spirit, however there are sometimes great direct flights available.

We highly suggest to select main cabin seating or higher levels, due to the many restrictions accompanied with basic.

Miles or Credit Card Points? Don't forget to utilize those!

Layovers are complex! To ensure you have ample time and in case the airline has delays, for flights out of the US we suggest minimum of 1.5 hrs and returning to the US minimum of 3 hrs.

Always book directly through the airlines website. Third party vendors (like Kayak or Expedia) will not be able to assist should cancelations or delays occur.
