

Queen Elizabeth II Medical Centre Updates

New motorbike shelter now available in Car Park 7

A new motorbike shelter has recently been installed in Car Park 7, providing riders with a covered area to park during hot weather and rainy conditions.

The shelter accommodates up to 19 motorbikes, helping to ease demand on existing motorbike parking areas near B Block and the Multideck Car Park. Motorbike parking is free, and a great cost-effective alternative for staff looking for an easier commute and parking option.

Motorbike parking is available at the following locations across the campus:

- Multideck Car Park
- Near B Block
- Near AA Block
- Next to the boom gates at Car Park 3
- Car Park 4
- Car Park 7
- Inside the Perth Children's Hospital Car Park

The Trust encourages staff who ride motorbikes, or are considering doing so, to take advantage of these dedicated parking facilities.

Gardens & Grounds

Daffodils in bloom at DD Block

In case you have not noticed, the daffodils recently planted by the Gardens and Grounds team in the garden beds in front of DD Block are in full bloom, following Daffodil Day on 20 August.

Their bright yellow flowers add a welcome splash of colour to the DD Block gardens.

As home to several leading cancer research institutes, the QEIMC campus has a special connection to Daffodil Day. These blooms serve as a symbol of hope and support for those affected by cancer.

Campus Comforts Project

Shade Sail installed at N Block

The Trust is pleased to announce the completion of a new shade sail outside N Block on Caladenia Crescent, delivered as part of the broader Campus Comfort Project.

The new structure provides valuable protection from sun, creating a comfortable and inviting outdoor space for patients, visitors, staff and students.

In addition to enhancing comfort, the shade sail supports wellbeing by offering greater protection from UV exposure while improving the overall look and feel of the area. The upgraded space contributes to the Trust's ongoing commitment to creating welcoming, functional, and sustainable environments across the campus.

QEIMC Trust

QEIMC Trust Board Update

The Trust team would like to thank Mr. Rob McDonald, QEIMC Trust Board Chair, for his commitment to collaboration and innovation during his tenure. We wish him all the best following his decision to step down from the role. We appreciated his keen and hard-working approach to the evolution of the QEII Campus.

In May 2023, Rob was appointed to the role of Board Chair. With substantial Board experience and a long career in the WA Public Sector, including several senior executives, positions, Rob brought a positive and enthusiastic energy to the role. Thank you for your support, availability to seek advice and positive leadership.

We would also like to extend our thanks and appreciation to outgoing Board member since 2022, Mr. Rob Anderson.

Deputy Chair, Professor Jeffrey Keelan, a Board member since 2020, has kindly offered to step in as Acting Chair in the interim.

The Trust team look forward to bringing you further news on the appointment of a new Board member and Board Chair later this year.

Travel Plan Survey 2026

Please help us shape the future of travel at QEIMC

We rely on you, QEIMC staff, to complete our survey to help improve travel for all. The QEIMC Trust Travel Plan 2026-2030 will help guide future transport and access improvements across the campus.

Your feedback will help us better understand how people travel to, from, and around QEIMC, identify current challenges, and inform initiatives that support a safer, more accessible, and sustainable campus for everyone.

Scan the QR code to complete your survey and share your feedback. Your input will help guide future initiatives at QEIMC.

Bike Month

Celebrating 20 years of QEIMC Bike Month

This year, the Trust celebrates 20 years of supporting cycling across the campus. What started with 48 cyclists at the inaugural Bike Month Breakfast in 2006 has grown into a popular annual event, with more than 80 cyclists participating in recent years.

Over the past two decades, the Trust has continued to invest in cycling facilities, including additional bike parking, an eRideable shelter, Bike Repair Stations and the Bike Dr Program, helping make cycling a safer and more convenient travel option.

Join us for the **Bike Month Breakfast on Wednesday, 28 October, from 7.30am to 9.30am** at the Nurses' Quarters near R Block. It is a great opportunity to connect with fellow riders, celebrate the cycling on campus and help us mark this special milestone as we wrap up Bike Month.
