

claus^{ematch}

Simplifying compliance for the world

We help companies to operate safely and
to bring compliant products to the market

clausmatch

Tools can't keep up
with compliance needs.
Silos kill speed

Comply or be doomed

Regulatory fines

\$400bn
since 2008
Regulatory fines
paid by banks

\$6bn since 2018
Fines paid by
companies guilty
of data breach

Insolvency and criminal
charges

Customer complaints

**Millions of angry
customers** had their
details stolen

Simplicity is our ultimate tool

Manage compliance
documents in one place

Collaborate and
engage in real-time

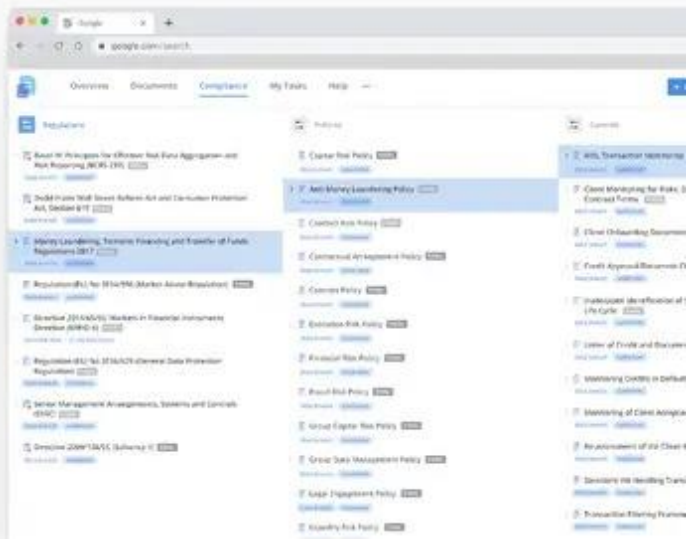

Keep everyone up to date

Manage compliance documents in one place

Compliance and risk departments can manage obligations, policies and procedures in one single place

Collaborate in real-time

Real-time collaboration and workflow ensure that everyone is working on the same version with audit trail

The screenshot displays the clausematch.com web application. The main window shows a document titled "Sanctuary Laundry Policy" with a text editor. A "Manage users" modal is open, listing users: Glenn G., Cordelia M., and Brinde B., each with a "REMOVE" button. On the right, a "DOCUMENT ACTIVITY" sidebar shows a list of actions:

- Timeline** | Approvals | Custom Permissions
- Show Everything +
- Timeline**
- Cordelia M.** was added to paragraph approvers by Richard C. (10:00)
- Duane W.** was removed from paragraph approvers by Richard C. (10:00)
- Richard C.** approved paragraph (10:00)
- Richard C.** rejected paragraph (10:00)
Rejected based on the prior discussion about the need to outline specifically which legislations this document is relevant to.
- Richard C.** set paragraph status to pending (10:00)
- Timeline**
- Richard C.** commented on paragraph (10:00)
May be worth considering restricting local requirements specific to paragraphs where we are operating.

Simplifying compliance for the world

Why our clients choose us

"ClauseMatch technology surpasses anything on the market today."

BlackRock.

"Makes life so much easier. I don't know what I would do without it."

 **BARCLAYS**

"Being able to audit text at the paragraph level is a game changer."

 **BNY MELLON**

"Users can link information logically – that's better than basic, bi-directional hyperlinking."
