Approved: Jun Yue

**Purpose:** This policy outlines our commitment to sustainability in all aspects of our operations, ensuring environmental responsibility and compliance with legal standards.

**Scope:** This policy applies to all activities and projects undertaken by LMB, including those at our head office, yard, and on client sites.

## Policy Commitments:

- Legal Compliance:
  - Maintain a Legal Compliance Register and uphold our membership with Barbour EHS to ensure access to the latest legislation.
- Sustainability Management:
  - Conduct regular inspections and address corrective actions promptly.
  - Follow the LMB Office (Health, Safety, and Sustainability) Plan and Risk Assessments to manage sustainability at our head office and yard.
- Site Sustainability:
  - Conform to the sustainability requirements of Principle Contractors (PC) on client sites.
  - Engage in minimal influence sustainability practices as applicable.
- Training and Awareness:
  - Cover sustainability and environmental risks in site-specific Risk Assessments and Method Statements (RAMS).
  - Conduct sustainability-focused toolbox talks and ensure all operatives attend RAMS inductions and understand their contents.
  - Train Site Managers through the Site Managers Safety Training Scheme (SMSTS), focusing on environmental management and waste management.
- Energy and Water Usage:
  - Promote energy efficiency through toolbox talks or company Campinas.
  - Manage mortar silos efficiently, maintaining them in designated areas to reduce water usage and prevent spills.
- Waste Management:
  - Comply with PC Site Waste Management Plans (SWMPs), aiming for reuse and recycling of materials such as scaffold boards.
  - Implement good housekeeping practices to minimize waste and damage.
- Material Sourcing:
  - Opt for materials with recycled content and sustainable alternatives where possible.
  - Use suppliers accredited to ISO 14001 and consider local suppliers to reduce environmental impact.
- Pollution Control:
  - Adhere to Environment Agency Pollution Prevention Guidelines (PPGs).
  - Store fuels and chemicals safely and conduct regular toolbox talks on proper handling.
- Air Quality and Noise:

- Minimize noise and dust emissions through the use of water suppression equipment and other control measures.
- Community Engagement:
  - Comply with the Considerate Constructors Scheme, acting as a good neighbour and responding appropriately to community feedback.
  - Ensure all timber scaffold boards are supplied with an FSC/PEFC certificate to promote sustainable forestry.

**Review :** Annual review and update this policy to reflect new regulations, technologies, and industry best practices.

**Conclusion:** LMB is dedicated to operating sustainably and responsibly, ensuring that our environmental impact is minimized while maintaining high standards of quality and safety in all our operations.
