

FAR EAST OF PEAT

6th Batch

FAR EAST OF PEAT 6th Batch Blended Malt Whisky

◆ Product Description

In 2020, Saburomaru Distillery began whisky production using Islay peat for the first time. Alongside distillation in the world’s first cast-metal pot still ZEMON, the distillery also introduced wooden fermentation tanks. For maturation, the team primarily selected barrels roasted and crafted in Inami, Toyama Prefecture.

This blend combines the 2020 Saburomaru Heavily Peated Malt, distilled in the ZEMON pot still, with carefully selected peated Scotch malts. These innovations come together in the Far East of Peat 6th Batch, showcasing the rich character derived exclusively from malt whisky and the smoky harmony created by multiple peated components.

Distilled in 2021 this limited release comprises only 7,200 bottles
