

Saburomaru V THE HIEROPHANT Cask Strength

◆Product Description

People walk through life for many years.
Where you walk becomes the road.

In 2021, Saburomaru Distillery began experimenting with ale yeast in a matured state through advanced yeast-cultivation techniques. When this aged ale yeast is combined with fresh whisky yeast, it creates a deeper, more mature aromatic profile. This interplay of old and new reflects the distillery's own evolution, shaped by the legacy of skilled artisans whose craft continues to guide each generation. From this foundation, new traditions emerge and are carried forward.
