ABOUT

Bommarito Construction

Founded in 1997, Bommarito Construction is a leading provider of site development and utility construction contractor in the St. Louis area. With a commitment to quality, innovation, and efficiency, they specialize in earthwork, underground utilities, and grading for commercial and industrial projects.

With takeoff time reduced, we're focusing better on strategically bidding & project management

CHALLENGES

The adoption of Beam AI has driven measurable

down the process.

Manual takeoffs consumed an entire

workday for larger projects.

Using manual takeoff software

required significant effort, slowing

Limited capacity for bid submissions,

resulting in missed opportunities.

Turnaround time for bids was slow,

with customers needing faster

Estimators spent more time on

takeoffs instead of managing

projects.

results for Bommarito Construction:

Breaking Down the Key Wins

Since integrating Beam AI, Bommarito Construction has transformed its estimating and project management workflow:

KEY WINS

Saved 6+ hours per project, with large projects taking an entire day

Reallocated 1-2 days per week from takeoffs to estimating and project management.

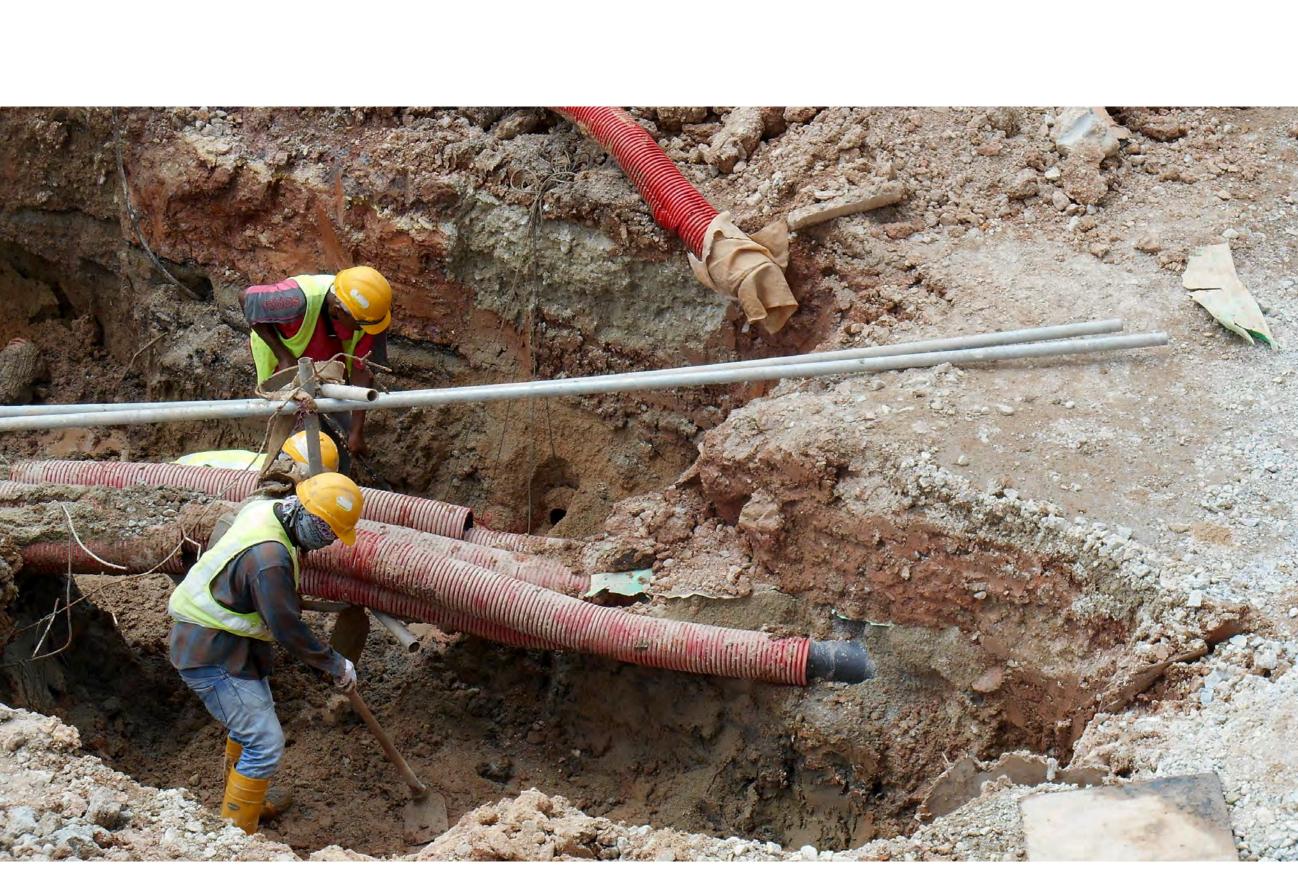

Bid volume increased by 50 projects in just six months.

Improved bid turnaround time, meeting customer demands for faster quotes.

competitiveness.

mistakes and increasing

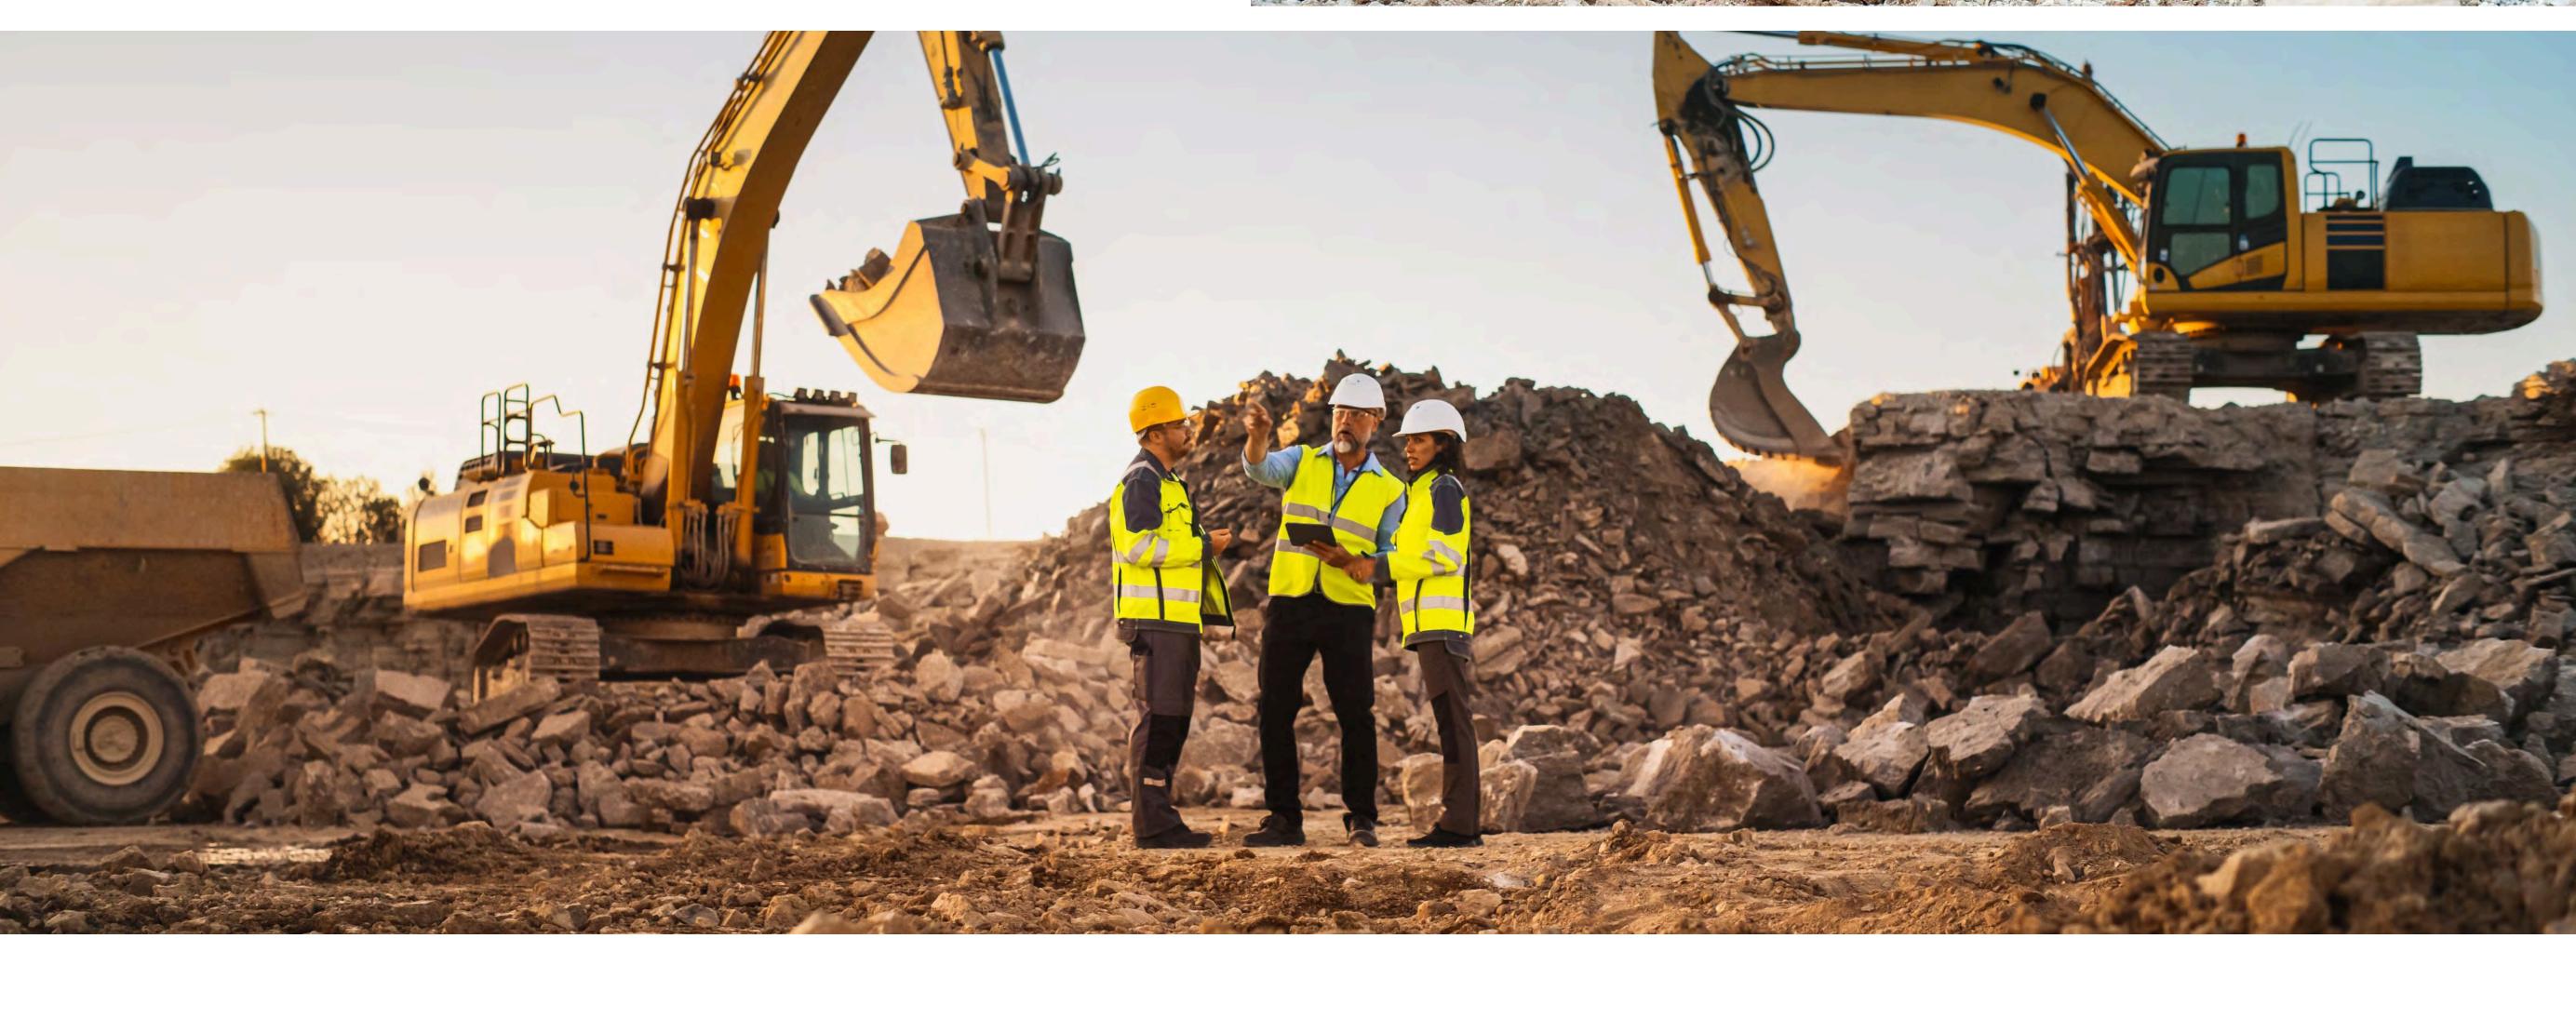

More accurate bids, reducing costly
